## EXPERIENCE

---

### Undergraduate Research Assistant

Seattle, WA

Seattle Children's Research Institute

September 2023- Present

- Conducted research on the role of menin in Ewing sarcoma (EWS), focusing on its impact on the expression of the EWS driver protein (EWS::FLI1)
- Utilized molecular techniques including western blotting and RT-qPCR to analyze protein and transcript levels in MEN1-knockout and control cell lines
- Investigated the involvement of menin in epigenetic regulation by assessing histone modifications, providing potential insights for future cancer treatments

### Certified Nursing Assistant

Cupertino, CA

Sunny View Retirement Community

July 2023- August 2023

- Assisted 30+ patients with activities of daily living, including showering, oral care, and incontinence care for enhanced comfort for 160+ hours
- Proficient in vital signs assessment, patient condition monitoring, and meticulous documentation
- Effectively communicated with patients, families, and the healthcare team, contributing to comprehensive care
- Supported safe ambulation and transfers to minimize injury risks

### Physician Shadowing

San Jose, CA

O'Connor Hospital

June 2023 - September 2023

- Accumulated 175+ hours observing physicians in Internal Medicine, Oncology, and Hematology, gaining insights into diverse patient care scenarios
- Proficiently navigated the EPIC charting system and refined electronic health recording skills
- Witnessed diagnostic procedures and assessments, enhancing familiarity with medical decision-making
- Observed physician interactions with medical professionals, patients, and families, improving communication skills and understanding of bedside manner
- Recognized the significance of interpersonal skills in cultivating trust and establishing meaningful connections with patients and their families

### Paid Swim Instructor

San Jose, CA

De Anza Cupertino Aquatics Swim Center

August 2019- August 2022

- Coached age-appropriate swim strokes/techniques for 40+ students ages 6 months to adults
- Worked one-on-one with special needs students, chiefly autistic children
- Collaborated with parents and students to identify areas of concern and develop personal goals

## ACTIVITIES AND LEADERSHIP

---

### CEO and Founder

Cupertino, CA

*Students in Medicine* ([studentsinmedicine.com](https://studentsinmedicine.com))

June 2020 – Present

- Founded & led a non-profit for 1000+ students, offering free pre-health opportunities and resources
- Managed a team of 25+ students and communicated with 40+ medical professionals to host and plan events in an efficient and organized manner
- Orchestrated 15+ medicine-related expert panels on college-career paths, societal medicine issues, and a variety of specialties
- Hosted virtual science camps in 2021 and 2022 (~140 middle schoolers) with experiments and informative presentations while raising \$500+ for donation
- Initiated cultural mental health competitions (essay, art, documentary) for awareness

### Student Brand Ambassador

Seattle, WA

*Kaplan Inc. (Paid Work)*

June 2023 – Present

- Collaborated with 15+ student clubs/organizations, leveraging partnerships to achieve lead generation and brand recognition goals
- Led strategic Club Talks, engaging MCAT, LSAT, and other organizations to promote Kaplan's free resources and product benefits
- Successfully collected 1000+ student sign-ups for Kaplan information, demonstrating strong interest and potential sales prospects
- Orchestrated on-campus tabling events, distributing branded merchandise, and informing students about Kaplan's academic resources and coaching offerings

### Club Member

Seattle, WA

*Psychology at University of Washington*

September 2023-Present

- Facilitated mentorship connections and organizing enriching panel discussions aimed at guiding undergraduates through their academic journey
- Orchestrated bonding activities to foster a sense of community within the club, contributing to a supportive environment toward personal and professional growth

### Volunteer

Seattle, WA

*Stop the Addiction Fatality Epidemic (SAFE) Project*

January 2024 – Present

- Researched and established connections with 15+ local rehabilitation facilities, family support organizations, and recovery residences.
- Utilized creative skills to develop compelling infographics and posters to distribute in the community to increase awareness about addiction and the comprehensive resources offered by the SAFE Project
