Data loss happens, even in the cloud!

- User Error (64%)
- Malicious Deletion (7%)
- Hackers (13%)
- Software Issues (16%)

Office 365 and the Cloud do not prevent data loss due to human action. One study[1] found that 32% of the companies surveyed had experienced data loss in the cloud. **75% of data loss is due to people deleting content accidentally or intentionally**, and that's not the only threat.

Deleted items in Office 365 will be permanently removed after 14 days[2]. Expanded Office 365 licenses and features offer unlimited retention, but don't provide a fast, easy way to restore content exactly as it was and where it was so your employees can get back on track quickly.

2. The default 14-day retention can be extended to 30 days

Average Cost to Small Business Per Data Breach Incident

Data loss can be costly

According to a recent survey by Cybersecurity firm Kaspersky Labs on the cost of data breaches to businesses worldwide, the average cost to a small business was $120,000, a 36% increase in last year alone.[1]

Data loss can be stressful

Just the thought of data loss is stressful. But it doesn't have to be. With a backup solution, instead of reacting in panic to a data loss event, you can instead quickly and simply restore that data and get back on track quickly.

Restore data quickly across Office 365

Exchange Online

SharePoint for Business

OneDrive for Business

Office 365 Groups

Microsoft Teams

" We would have been in real trouble had BOAB IT not configured cloud backup to protect our data. We would have likely had to pay a $6,000 ransom, with no guarantee of getting our data unencrypted."

Practice Manager at law firm that was victim of ransomware, but protected by Cloud Backup

Unleash the productivity of Office 365

Office 365
Empowers productivity

Office 365 is the number-one cloud-based productivity suite, with powerful tools for communication, collaboration, and content creation. However, it is not designed to quickly and easily restore lost, deleted, or corrupted data.

CLOUD BACKUP
Restores data quickly, so you can stay productive

Unlimited Backup
Up to 6 daily backups
No data or retention limits
No overages

Rapid Search
Find lost data in seconds
Simple, intuitive interface
Robust browse & search options

One-Click Restore
Restore data right back where it was
Get back on track quickly
Peace of mind

Coverage across all productivity applications

Exchange
Email, calendar, contacts, tasks, notes, Public Folders, and more.

Granular and bulk restore, including point-in-time restore
