We are all Monkeys

Our differences make us the same!

About US

Be yourself and go Bananas!

We believe that all people are different, and that makes everyone the same, after all we are all primates.

Our project seeks to express these differences through art beyond entertainment, having a strong connection with diversity.

We hope you'll join us, this is just the beginning...

The original MonkeyADA

Where the idea come from

It was early April 2021 when I saw this beautiful monkey designed by my son..

I was amazed and soon turned the art into an NFT that I kept with all my love...

Things from a father who is a fan!

Think about it

Love, love, love...

Mastering the life

Observing and learning

Nobody is alone

Knowing and loving

Every single day

Year after year

All we need is love

Doesn't matter who you are

At the end... We are all Monkeys

Roadmap

The future utility

Tell me about it

NFTs with utilities are the future and with MonkeyADA your investment will continue to reap rewards, long after your initial mint/purchase.

Sharing Royalties

More info...

Our **royalty value will be 2.5%**, but it could change in the future.
It depends on the market and how the community points the way forward.

That **2.5% will be split between 5001 Monkeys** which is the total that will be minted when we finish sales.
Of this 2.5%, we will allocate **0.5% for donations** to institutions chosen by the community.

Thus, with the **implementation of smart contracts**, for each sale, the percentage of royalties will be shared with all holders and the more monkey you have, the more you will receive in each negotiation carried out.

Example:

If the total trade volume is 100k ADA per month, the 2.5% royalty amount will result in 2500 ADA
-> 2,000 for holders and 500 for charities.

Thus, the division of the value per monkey would be: **2,000 / 5001 monkeys = 0.4 ADA per monkey**

If you have 10 monkeys, you will receive $10 * 0.4 = 4$ ADAs

If you have 25 monkeys, you will receive $25 * 0.4 = 10$ ADAs

if you have 50 monkeys, you will receive $50 * 0.4 = 20$ ADAs

and so on...
