TAGGING INSTRUCTIONS

CLOTHING (CURRENT SEASON ONLY!)

1. All clothing (except onesies and accessories) must be washed and hung on plastic hangers (no wire).
NOTE: Use small plastic hangers on sizes Newborn-8, and larger plastic hangers on sizes 10-14.
NOTE: You may pick up hangers after the sale, but you may not get the exact hangers you brought.
2. Pants or shorts can be hung on plastic shirt hangers using clothes pins or on plastic children's pants hangers.
3. The tag must be attached on the front of the item's upper left-hand shoulder seam or waistband - see photo below. Delicate items may have the cardstock tag attached to the garment tag.
4. Hang the garments on the hanger so that the hanger makes a question mark (?) when the clothing is lying on the table in front of you. See the photo below.
5. Tags should be attached to clothing using a tagging gun (attach the barcode tag through the garment tag) – be sure to tape the tagging gun barb ONTO the cardstock tag so it's reinforced and less likely to fall off. **Tagging guns make your items more secure to theft – you may purchase one for about \$10 on Amazon.** You may also use large safety pins (no small gold safety pins!), but be aware, it's easier for shoppers to switch tags if you use safety pins.
6. Clothing **must be sorted by gender and size** before you bring them to the sale. Please band the hangers together by size and gender with rubber bands!!
7. Smaller items – onesies, infant hats, socks, bibs, etc. can be placed in Ziploc bags and the tag should be taped to the outside of the bag. Use clear packing tape to tape the tag and TAPE THE BAG CLOSED to ensure that your items are not removed from the bag.
8. When entering your items into online inventory, **include the brand name** in the first line of the description. This helps us search for items in the system if a tag falls off. Also, note if an item is new or barely used. This will catch the buyer's eye. Also, state how many pieces (if there are multiple pieces) are included in a set, i.e. 2-piece outfit.

SHOES (shoes are limited to 10 pairs- bring your best and newest!)

1. Attach them together with zip ties. Knotting their shoelaces together is also helpful, but zip ties are the best.
2. Shoes can also be placed in a Ziploc bag. Place a strip of clear packing tape over the seal of the bag so that it cannot be opened during the sale. If you attach your tag directly to the shoes, tags will easily get ripped off shoes. Therefore, we recommend "laminating" the top of your tag with packing tape before you affix the tag to your shoes - that way the tag won't be so easily ripped off.

TOYS (leave the cheap ones at home)

1. Toys that require batteries must have working batteries.
2. If the toys have loose parts, secure these extra parts in a plastic bag and securely tape them to the main toy. Shoppers (read: their children) are very adept at playing with unsecured toys. If parts aren't secured well enough, they will get lost and separated and make it difficult for your toys to sell.
3. Tape your product information tag securely to the toy so that it cannot be torn off easily by the customer.
4. Tape shut or place in bags any games, puzzles or other "boxed" items to ensure that the pieces don't get pulled out during the sale.
5. Bikes or outdoor toys should be clearly labeled. Tape tag to the toy in a location that makes it easy to see.
6. Stuffed animals (hygiene issues) and random kids meal toys are NOT allowed.

BOOKS (limited to 10 or 10 bundles)

Tape the product tag to the back cover of the book. Use regular scotch tape and only tape two sides of the tag down. This will prevent damaging the books' covers when removing the tag. You can also bundle similar books by tying them together with yarn and tagging the bundle of books.

BABY GEAR (strollers, bouncers, exersaucers, play gyms, high chairs, and furniture):

1. Instruction manuals are always helpful - include them when you can. Most of them can be downloaded them from the internet if you've lost them.
2. Ensure everything is clean – trays, pads, bars, etc. – spit up and gunk get caught everywhere!
3. If items have multiple pieces that might get separated (e.g. bouncy seats and their activity bars, the 7 pieces that come with your pack and play, cribs with 8 pieces), make sure that the product tag is on the main piece. Handwrite additional tags with your consignor #, the description and mark them with 1 of 8, 2 of 8, 3 of 8, etc.
4. Car seats and drop-down cribs are NOT allowed!

PRICING

- You set your own prices for your items. All prices must be in WHOLE DOLLAR increments, **and items must be able to be priced at \$3 or higher**. Rule of thumb: if you can buy something for less than \$5 in the store, DO NOT enter it into this sale.
- In setting prices, consider what you would be willing to pay at a consignment store for the same item.
- Most items earn anywhere from 25-50% of their original retail value. Hot brands or "new" items can earn even more, while common items like play clothes will typically earn less.
- Remember pricing is subjective and depends on the name brand, quality, and fashion. Here is a guide on how to price typical clothing items. A more in-depth guide is available on our website.
 - Shirts and shorts-\$3-\$5
 - Pants and jeans- \$3-\$6
 - 2 piece outfit- \$6-\$10
 - 3 piece outfit- \$8-\$14
 - Dresses/JonJons- \$6-\$10
 - Smocked- \$10-\$20 (\$14 avg)
 - Hot Brands- \$12-18 (\$16 avg)
 - Large Toys- \$5-10
 - Furniture- 30% of retail cost
 - Baby Gear- 30% of retail cost
- Items that are cleaned, ironed and nicely hung on the hanger will bring more money. Attach any instructions to strollers, high chairs, cribs, toys, etc. You can even include the original retail price or a printed description of the item so buyers know what kind of deal they are getting.
- **Allow your items to be sold for half off the last day (check "discount" when you enter inventory online). Consignors are happier with their checks if they have discounted their items.**
