

New to Home Health Care?

What to Expect From Your Unique Health Care Solutions Team

1.

We Get to Know Each Other

After we receive an order from your doctor for home health care we:

- + Complete a comprehensive assessment
- + Focused one-on-one time with a trained professional setting goals for health and mobility
- + Work closely with your physician and family to develop a customized health care plan in consultation with the entire care team
- + Set up a schedule of visits coinciding with your plan of care
- + Provide quality care with personal advocates and experienced staff to help you achieve your goals

2.

We Work Together as a Team

We're a team and your input is important to us! We strive together to reach your goals by:

- + Implementing your personalized plan of care consisting of nursing, therapy or personalized services
- + Regularly reassess your care plan reflective of progress achieved
- + Collaborate with the entire team: physicians, family, and other care givers toward continued improvement

3.

Goals Achieved!

We work to get you back to your prior level of independence.

Our team is always available in the future should you need us.
