

# INVASIVE SPECIES TREATMENT NOTICE

The Lake St. Clair Cooperative Invasive Species Management Area (LSC Cisma) in conjunction with Six Rivers Land Conservancy hereby provides notice to the public and property owners for the control of invasive phragmites.

Contracted Application Firm:

PLM Lake and Land Management  
1042 N Milford Rd Suite 104, Milford, MI 48381  
(248) 937-1802

ANC Permit #: ANC9430165

Schedule & Treatment Locations:

Weather permitting, applications will take place starting September 1, 2024 through the end of October 2024 within the Wetland Conservation Easement, as part of Creekside Village.

Herbicide & Method of Application:

Aquaneat (glyphosate), Hi-Lite (dye) and Cygnet Plus (drift control, surfactant). All applications will be foliar, applied by vehicular mounted hand spray gun equipment and by backpack sprayer. The herbicide will be tank mixed. **Do not enter treated areas until the spray has dried.**
