

Call For Posters for

the 4th High School Students Poster Forum (HSSPF)

in Conjunction with Georgia Tech CEISMIC Expanded Learning Programs

We invite submissions of posters on internship or independent research results from high school students. The topics are related to applied STEM techniques on extra curricula (including but not limited to arts, music, sports, and business).

Organizer: SAM meets STEM Club <https://sammeetsstem.com/>

Time and Location: Sep 26, 2026, at Georgia Tech, Atlanta, GA, 30332

Topics of general interests include (but are not limited to):

- Mathematical modeling for athletic training
- Physical analysis for sports training
- Image analysis for art works
- Audio denoising for music pieces
- Bio-signal analysis
- Environmental monitoring and analysis
- Music processing and source separation
- Finance and marketing data analysis
- Any research topics that link STEM with extra curricula

Important Dates and links:

- Poster draft and abstract submission deadline: Aug. 30, 2026
- Poster review notification: Sep. 11, 2026
- Poster final submission: Sep. 18, 2026

Poster and abstract can be submitted through this link
