How to read this catalog.

Due to the potential age of some items, original equipment and new equipment items are designated with one or two asterisks below the photo of the category.

* = Original Equipment

** = New Equipment

Certain items qualify for an optional core exchange. Core value is deducted from total cost when received. If you see this symbol inquire to receive a core exchange discount value.

{CE\$} = Qualifies for Core Exchange

Pricing

Every attempt is made to keep our prices as close to the current catalog list price as possible. However, because of price fluctuations from our suppliers, equipment sourcing and volume buying, the price of some items may increase or decrease accordingly.

Returns

Before returning any part(s), a return authorization number is required. Returns without an RA number will delay the credit or exchange and in some cases, they will be returned to you. Some items are not returnable depending on application and condition of item(s). However, we may consider purchasing them from you depending on condition and application. All returns are subject to up to a 20% restocking fee. Shipping is subjective on each individual issue.

BODY MOUNT BUSHING SETS

ALL BODY MOUNT BUSHINGS CAN BE SOLD SEPARATELY

REMOVAL

Spray all nuts to be removed with rust removal lubricant.

Bushings are designed to work with original body mount sleeves or aftermarket sleeves and washers.

Note: When disassembling, note the quantity and positions of any shims that may have been inserted for body alignment. These shims will have to be reused to insure proper body alignment.

Installation: Only raise body high enough to remove and replace mounts. Install mounts one side at a time with bolts on opposite side loosened only.

POSITION # 5

Note: Some vehicles did not come with this bushing. It's located in a hole in front of the upper rear spring perch. No sleeves, bolts or washers are used in this location.

POSITION # 1

POSITION #2, 4, 6 & 7

POSITION # 3
