

ABOUT US

Nippy Needles was created from the joy of sewing and creating personalised gifts for family and friends.

Having worked in the corporate branding and merchandise industry for some years, I invested in industrial standard machinery and reached out to the corporate market to offer a personal service for corporate branded clothing and workware.

Incorporating Infusible ink and Vinyl printing, as well as embroidery, our extensive range offers garments and gifts at affordable prices depending on your needs and budget.

So if you want to promote your business, smarten your brand, kit out your club, or give a beautiful gift then Nippy Needles is the right choice for you.
