

**TREND TRADE** is a startup Egyptian company specialized in Manufacturing, selling and exporting IQF frozen fruits and vegetables under our brand name (Vegie Turk)

**TREND TRADE** is keen to provide high quality of fruit and vegetable crops, Which is carefully monitored to maintain its quality and nutritional value. Then the harvesting stage, where the warehouse and logistics base is located near our farms to maintain the quality of our products during sorting, cleaning, and washing. This process is done in an automated and high-tech way to maintain the continuity of quality and nutritional value. Finally the freezing stage, which is done individually Fast (IQF) to retain full flavor, quality and nutrients.

**TREND TRADE** provides the highest quality crops of fruits and vegetables to preparation and distribution while meeting the strict standards for Food Safety.

**TREND TRADE** care about the ideal presentation of fruits and vegetables both in wholesale packages and individual packages.

Import and export of frozen vegetables and fruits are in high demand in the global market, and is expected to increase in the coming years.

**TREND TRADE**, we strive to exceed customer expectations by offering a superior product and competitive prices.
