

# COYOTE CREEK NO FRILLS NEWSLETTER

JANUARY 2026

Happy New Year

Please remember your holiday lights and outside decor should be removed before the end of the month.

Coyote Creek is a dark sky community.

Porch lights and carriage lights left on all night attract bugs(don't we have enough already?), disrupts animal behavior and confuses them, and makes it harder for your neighbors to enjoy the stars and outdoors in the evening.

Please turn off your outside lights when they are not needed.

It's not too early to think about your landscaping or vegetable garden. Please check your plant selection on the Coyote Creek HOA guidelines.

U of A Cooperative Extension is a fantastic resource for learning about planning and planting. Options include You Tube videos, printable publications, ZOOM classes as well as in-person classes at many of our libraries.

Info available at <https://extension.arizona.edu>

An excellent source for desert plants is the  
Tucson Cactus and Succulent Society  
Check out the rescue plant sale on  
Jan 18 from 10a-Noon which is open to the public.
