

NATIVE WILDFLOWERS through the SEASONS

Presented by

Robert Bertin, PhD

Tuesday, Sept. 21, 2021
7 PM (sharp)
The Dudley Grange
139 Center Rd, Dudley
Event is **free**

This presentation is in conjunction with this year's DCLT "Native & Pollinator Bulb Sale." Robert Bertin, PhD, Professor Emeritus at Holy Cross, will discuss a variety of native plants in the wild and their importance to the environment. Some of the plants are offered in our bulb sale. By learning the natural conditions of these native plants you will be able to adapt these plants to your garden landscape.

Registration is necessary, as space is limited. Please call 508-949-0250 to register and leave voicemail with your name and phone number. Contact with registrant is necessary due to possible changes in program.

For information on the "Native & Pollinator Bulb Sale" check DCLT website at www.dudleyclt.org
