QUANTITY SURVEILING

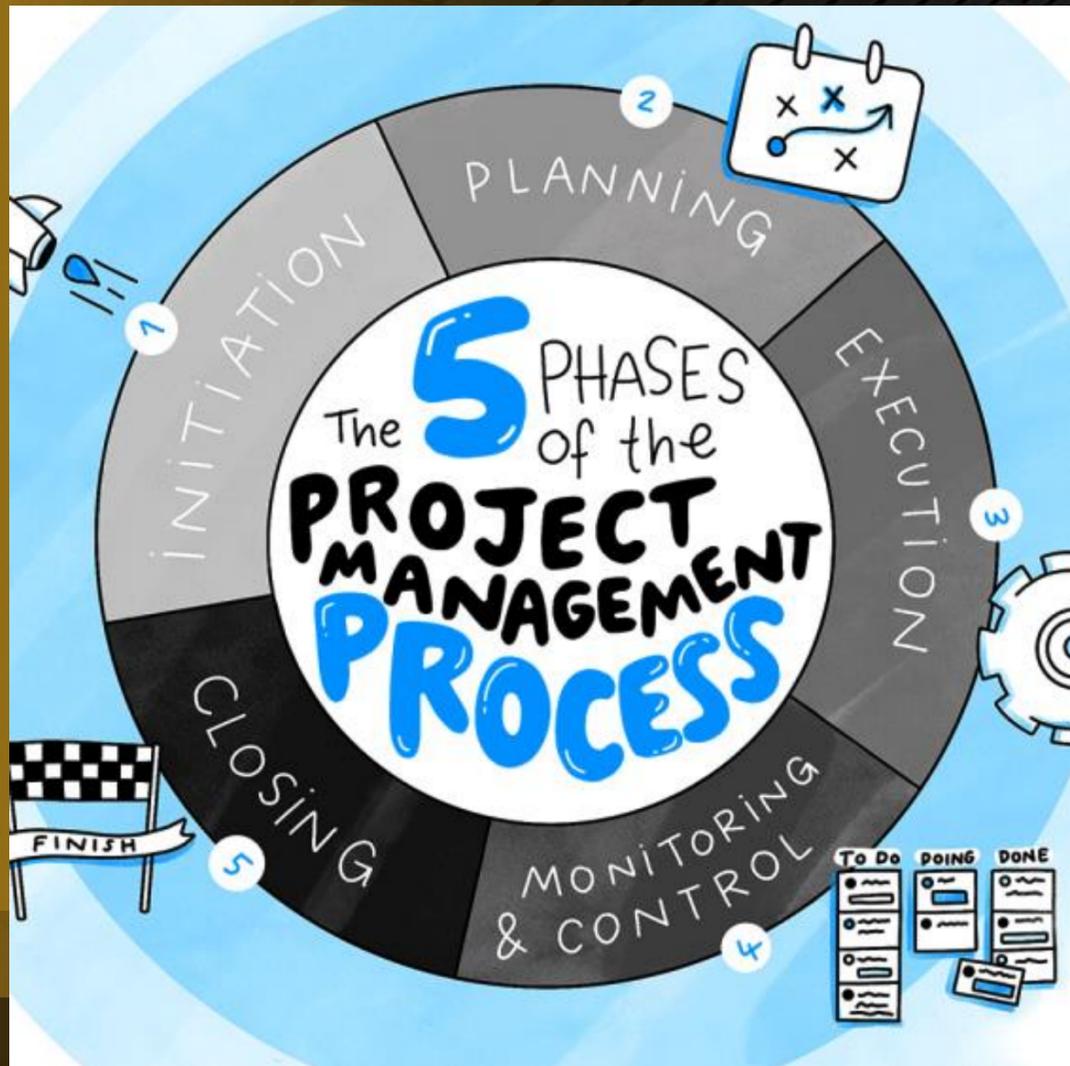

SK&A offers services in Quantity Surveying; by giving Clients all costs related to construction projects; from the initial calculations to the final project close-out. We aim to minimise the project costs and enhance value for money, while still achieving the required standards. We work for Corporates, Promoters and Builders, Project Owners, Design and Build Contractor's, etc. Our involvement is from preparing project feasibility reports, preliminary estimates and budget costs; tracking and monitoring cash flows, till the final closure of the Project. We keep track of all the costs related to variations in the Project and generate reports.

Our services include:

- Project feasibility, Estimation and Valuation of the project, Cost planning and commercial management during the entire life cycle of the Project from inception to completion,
- Preparing tender and contract documents including bill of quantities, undertaking Cost analysis for Project, advising on Value engineering,
- Assisting in establishing Client's requirements and undertaking feasibility studies, Advising on procurement and tax strategy,
- Identifying, analysing and developing responses to commercial risks,
- Preparing and analysing costing for tenders, Valuing completed work and certifying payments to contractors,
- Establishing the costs related to design variation and technical auditing.

PROJECT MANAGEMENT

SK&A offers Project Management services by giving Clients all end to end assistance during implementation of construction projects. It involves specifying project objectives and plans including delineation of contract scope, budgeting, scheduling, setting performance requirements and selecting project participants. Maximizing the resource efficiency through deploying skilled and specialised man-power, procurement of materials and equipment. Implementing various operations through proper co-ordination and control of planning, design, estimating, contracting and construction in the entire process, developing effective communications and mechanisms for resolving conflicts.

Our services include:

- Project planning and scheduling, Cash-flow management, Optimum use of available funds,
- Co-ordination with all consultants/agencies involved in a Project,
- Control on the scope of work and variations to the project specifications and contract clauses,
- Optimum use of skills and talents of design and consulting firms involved in Project implementation,
- Avoidance of delays, changes and disputes, identifying long lead items for early procurement
- Enhancing project design and technical specifications,
- Optimum flexibility in contracting and procurement,
- Keep check on construction quality and standards followed on site.

COST CONSULTING & COST AUDITS

SK&A offers comprehensive services in Cost Consulting and Cost Audits; by giving Clients all costs related to material procurements, labour and manpower engagement, tools and equipment's, overheads and margins on projects. We provide detailed cost analysis of the project, establishing the associated costs, overheads and a detailed report on the project overall expenses, for completed and on-going projects. Our goal is to provide high quality construction cost control and contract compliance audit services for our Clients. Our services allow Clients to plan their cost strategy, control overheads and receive the maximum value for the money spent.

Our services include:

- Collecting and analysing related construction cost data,
- Preparing cost reports based on the cost analysis,
- Forecasting and preparing budget reports for an on-going projects,
- Identifying, analysing and developing responses to commercial risks,
- Preparing and establishing material and man power consumption factors, which helps in creating database for upcoming projects and ventures.
