

Clover Flex

Benefits for Business

Clover Flex features industrial strength payment capabilities and security, with the flexibility to take payments at or away from the counter.

Accept more payments.

Accept chip and PIN, contactless credit/debit, and mobile wallets (like Apple Pay®, Google Pay®, etc.), and cash.

Protect what matters.

Backed by over 25 years of data protection, Clover Security helps protect your business and customers.

Improve efficiency.

Take orders, accept payments and print, email or text receipts. It's all included in the sleek and durable Clover Flex POS system.

Manage Your Business.

Monitor real time sales data and manage employee permissions and shifts from anywhere through our web dashboard and mobile companion app.

Enjoy mobility.

Because it's a wireless point-of-sale device with Wi-Fi and LTE connectivity, the Clover Flex POS system lets you do business right where you stand.

24/7 Support.

You can't do it all alone. So when you need help, we've got your back.

Clover Flex is a unique, all in one solution designed to meet your full range of payment and point-of-sale needs.

The Clover Flex POS system offers WiFi, LTE and IP connectivity options; allows you to print, email or text customers their receipts; and includes a cloud-based dashboard, a variety of apps to help you run your business more effectively and much more.
