## Scheduling sessions:

Our lessons are structured in two hour increments and are progressive. We typically like to schedule one session a week for the beginner driver. This will allow the parents to practice with their teen in between lessons based on the material covered in the previous session.

We schedule the first four sessions based on:

1. The amount of time the student has held their Learners Permit.
2. Driving practice with parent/guardian.
3. Students availability.

## Scheduling the Final Eval

The fifth session is schedule when the instructor determines the student is ready, for instance at the end of lesson four your students instructor will email recommendations like 15 additional driving hours with parent/guardian is recommend. Please continue to practice the areas that are recommended in the fourth Eval sheet.

The student should be exhibiting independent driving skills before scheduling the fifth session.

The student has to pass the Final Evaluation with a score of 80% or greater.

If the student passes the Final Evaluation their Certificate of Completion is submitted to ADOT electronically. ADOT recommends allowing 48 hours for processing the certificate before it becomes available at the MVD or Third Party Providers.
