How We Deliver the Delta CareStandardSM Beyond the Flight.

TRANSPORTATION

You can be assured of daily health screenings for staff and vehicle sanitizing. Shared ride and rental car providers will opt out of handling your personal belongings, unless requested.

CHECK-IN/CHECK-OUT

Enjoy a swift process with limited interaction and reduced touchpoints. The lobbies and other check-in areas are cleaned rigorously and frequently throughout the day.

HOTEL ROOM

Your room will be deep cleaned before you arrive. Please inquire about enhanced cleaning, if it will bring you peace of mind. Room and concierge services are contact-free upon request.

COMMON SPACES

Limited capacity and social distance guidelines are strictly enforced in facilities like the kids clubs, bars, fitness centers and spas. Plus, there are numerous sanitizing stations available for your convenience.

RESTAURANTS

Fewer patrons mean more space, so you'll find reduced seating in dining areas and restrictions on self-serve menus. Staff will practice social distancing, and follow heightened sanitation protocols.

HOTEL STAFF

Hotel staff is screened each day, and must wear protective equipment while serving you. Furthermore, they are trained in wellness, hygiene and emergency response protocols.
