

GUERGI[®]

Dermibel[®]

For maximum
hair shine and volume.
Unique composition for
skin and nail nutrition.

Estheceutical Premium Innovative Technologies

1 DERMIBEL® – 3 PRODUCTS IN ONE CAPSULE!

SKIN RENEWAL
Multivitamins + Coenzyme Q10

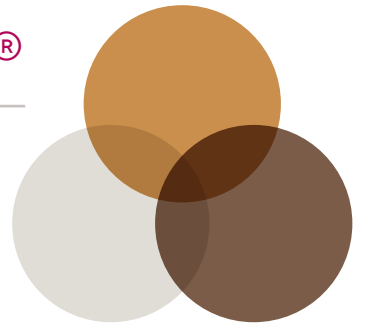

IMMUNITY
Zinc + Selenium + Vitamin E

SKIN NUTRITION
VitaminB + Minerals

2 KEY INGREDIENTS IN DERMIBEL®

- **Hydrolyzed marine collagen**
- Coenzyme Q10
- Nucleotides
- Spectrum of vitamins
- Minerals – Zinc, Silica and Selenium

3 COENZYME Q10

- Important factor in skin renovation
- **Strong antioxidant** – Protection against free radicals – prevents premature wrinkling
- Immunomodulation (Infection protection + Antiallergic)
- Energy boosting – helps cells in the body produce energy

4 MARINE COLLAGEN

BEAUTIFUL SKIN

- **Anti-wrinkle** effect: collagen maintains skin elasticity, smoothness and brightness
- Collagen is necessary for skin growth, rehabilitation and nutrition
- Effective on facial wrinkles and acne scars
- The plentiful amino acids in collagen are a natural moisture – retaining ingredient
- From the age of 25 the human body loses the collagen needed for supplementation
- Hydrolyzed powder form for better effect at low dosages
- High absorption rate in the body: 95–98%

HEALTHY HAIR AND NAILS

- The key to hair health lies in the **nourishment** of the subcutaneous tissue in the scalp at the hair foundation. Collagen deficiency can lead to hair dehydration and breakage and brittle, dull nails.

5 NUCLEOTIDES

- Key role in the **regeneration** of skin, hair and nails
- Basic constituent of DNA
- Important in the process of proper energetic metabolism
- Helps keep the immune system working normally

6 VITAMINS

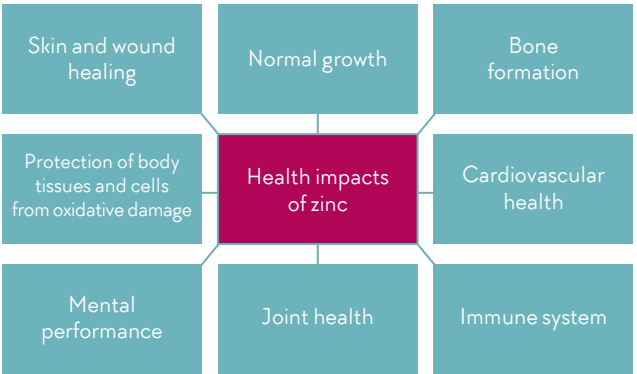

- Unique composition of B vitamins (B1–B9). Vitamins A, E and C
- Key role in the organism
- Improve skin hydration
- Boost the strength and integrity of hair and nails
- Contribute to the formation of collagen, elastin and keratin
- Contribute to energetic metabolism in cells
- Vitamin complex and nucleotides are essential for correct DNA and RNA synthesis and cell reproduction

VITAMIN E

- Antioxidant
- Important role in the immune system
- Wound healing
- **Cell protection**
- Q10 stimulation
- High bioavailability

7 MINERALS – ZINC, SILICA AND SELENIUM

ROLE IN THE ORGANISM

- Contribute to the **proper functioning of the thyroid gland**
→ effect on skin, hair and nail growth
- Protect tissues and cells from oxidation damage
- Skin and wound healing
- Zinc: mild adstringent → skin firming, anti-inflammatory – acne
- Silica: remineralization of hair and nails, supports the formation of collagen

8 INNOVATIONS IN TECHNOLOGICAL PROCESSING IN DERMIBEL®

- Technology of **micronisation** of active ingredients
- Technology of **slow release** of active ingredients
- **Vegetarian** capsule
- Ingredients in **pellet** form

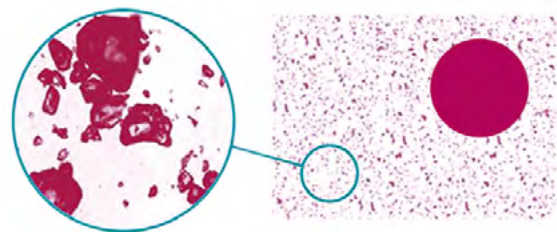

10 TECHNOLOGY OF MICRONIZATION OF ACTIVE INGREDIENTS

- **More effective** absorption of active ingredients into the body
- Improved solubility
- Lower dosage – only 1 capsule daily!
- Reduced side effects

MICRONIZATION – SIZE REDUCTION

AIRJET SPIRAL SYSTEM

Diameter of human hair

9 INNOVATIVE VEGETARIAN CAPSULE

- Vegetarian capsule made of HPMC (hydroxypropylmethylcellulose)
- **Derived from palm trees (no animal gelatine!)**
- Improved capsule stability
- Contributes to technology of Slow release
- Low humidity and hygroscopicity of capsule
- Low risk of microbiological contamination – high mechanical resistance
- No need for Halal certificate

11 PELLET TECHNOLOGY IN DERMIBEL®

- **Innovative pellet technology contributes to slow release of ingredients**

ADVANTAGES

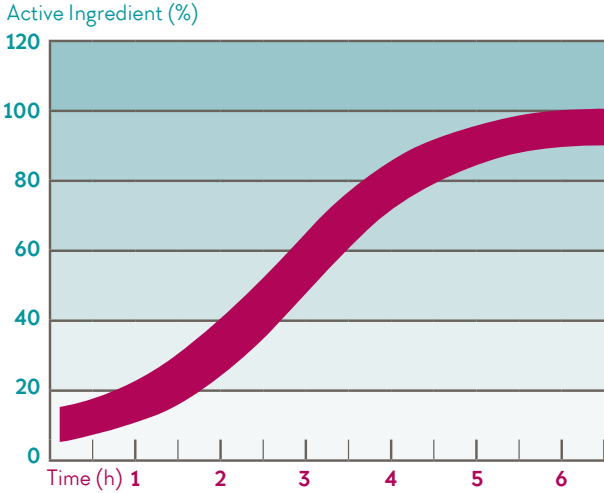

- Improved absorption of ingredients into the body
- Greater stability of active ingredients
- Lower dosage – **only 1 capsule daily**
- Enhanced bioavailability of ingredients
- Masks unwanted aroma of nutrients
- Enables combination of technically incompatible ingredients

12 TECHNOLOGY OF SLOW RELEASE OF ACTIVE INGREDIENTS

WHY SLOW RELEASE?

- **Enhanced stability** of ingredients
- Extended release time of active ingredients
→ increased benefits, longevity and effectiveness
- Target ingredient deposition onto a specific site to enhance efficacy and reduce side effects
- Enhanced bioavailability of ingredients to improve precise cell absorption
- Extended product shelf life
- Slow Release technology of ingredients → controlled time for dissolution – approximately 6 hours
- Therapeutic benefit – lower initial level of active ingredient in blood after its absorption
- Lower dosage → reduced side effects

DISSOLUTION PROFILE OF DERMIBEL® CAPSULES

Technology of slow release of ingredients controlled time for dissolution – approximately 6 hours.

13 RELATION OF DERMIBEL® WITH MENSTRUAL CYCLE

Dermibel® contains 20 vegetarian capsules.

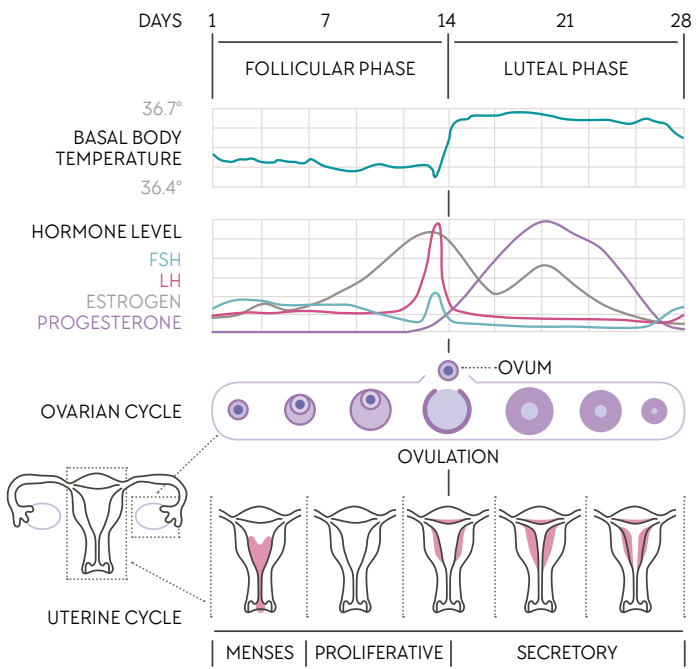

REASONS

- Dermibel® is adapted to the menstrual cycle.
- Why 20 capsules?
So as not to stress the organism during menstruation.
- Continual intake of vitamins E and A can have negative side effects → intake interrupted during menstruation.
- Complex composition of Dermibel alleviates PMS symptoms in the luteal phase of menstruation.

EFFECTS

- Contribute to regulation of hormonal activity
→ Contribute to normal psychological activity

Key components of Dermibel®:
10 mg doses of vitamins B6, E and A

14 PACKAGING

SUFFICIENT INTAKE OF ESSENTIAL INGREDIENTS PROMOTES BEAUTIFUL SKIN, HAIR AND NAILS.

- Dermibel® vegetarian capsules have the following benefits:
- Contribute to the creation of collagen in skin → strong, hydrated skin
 - Protect cells from oxidative stress – contribute to antiaging effect
 - Intake of minerals and vitamins to renew the skin
 - Silicon from horsetail remineralizes and maintains hair, nails or skin in optimal condition.
 - Zinc for beautiful skin
 - Vitamin complex and nucleotides are essential for correct DNA and RNA synthesis and cell reproduction
 - Regulate hormonal activity and support the normal functioning of the immune system
 - Contribute to reduce fatigue and exhaustion, help normalise psychological activity

Guaranteed advantages of innovated technological processing → more effective absorbtion of active ingredients in body at low dosages, enhanced stability of ingredients and enhanced bioavailability.

15 COMPOSITION OF DERMIBEL®

One capsule contains	mg / 1 cps.	%RDD*
Vitamin A – Retinyl palmitate	0,4	50
Vitamin B1- Thiamine HC	1,1	100
Vitamin B2 – Riboflavin	1,4	100
Vitamin B3 – Niacin	5	31,25
Vitamin B5 – Calcium panthotenate	3	50
Vitamin B6 – Pyridoxine HCl	10	714,25
Vitamin B9 – Folic acid	0,2	100
Biotin	0,15	300
Vitamin E – Tocopheryl acetate	10	83,33
Vitamin C – Sodium ascorbate	45	50
Horsetail extract (equisetum arvense stems)	50	-
Coenzyme Q10	30	-
Selenium (Selenium yeasts)	0,03	54,54
Zinc (Zinc citrate)	10	100
Collagen (hydrolized marine collagen powder)	60	-
Nucleotides	50	-

Food supplement

FOR MAXIMUM HAIR SHINE AND VOLUME. UNIQUE COMPOSITION FOR SKIN AND NAIL NUTRITION.

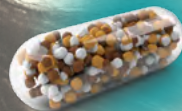

20 VegiCaps

60 VegiCaps
