| | P281 - Use personal protective equipment as required. P235 - Keep cool. |
|---|---|
| GHS Response Phrases: | P301+310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician P302+352 - IF ON SKIN: Wash with plenty of soap and water. P303+361+353 - IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. P304+340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P305+351+338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+313 - IF exposed or concerned: Get medical attention/advice. P312 - Call a POISON CENTER or doctor/physician if you feel unwell. P314 - Get medical attention/advice if you feel unwell. P331 - Do NOT induce vomiting. P332+313 - If skin irritation occurs, get medical advice/attention. P337+313 - If eye irritation persists, get medical advice/attention. P370 - In case of fire: |
| GHS Storage and Disposal Phrases: | P403 - Store in well-ventilated place. P405 - Store locked up. |
| | P501 - Dispose of contents/container according to local, state and federal regulations. |
| OSHA Regulatory Status: Potential Health Effects (Acute and Chronic): | This material is classified as hazardous under OSHA regulations. Inhalation Acute Exposure Effects: May cause dizziness, headache, watering of eyes, eye irrtation, weakness, nausea, muscle twitches and depression of central nervous system. Severe over exposure may cause convulsions, unconsiousness and death. Intentional misuse of this product by deliberately concentrating and inhaling can be harmful or fatal. Inhalation of decomposition products may cause severe injury or death. |
| | Skin Contact Acute Exposure Effects: |
| | May cause skin irritation. Decomposition may produce carbon monoxide and carbon dioxide. May cause numbness in fingers and arms, drying of skin, and dermatitis. May cause increased severity of symptoms listed under inhalation. |
| | Eye Contact Acute Exposure Effects: |
| | This material is an eye irritant. May cause irritation, burns, conjunctivitis of eyes and corneal ulcerations of the eye. Vapors may irritate eyes. May cause jaundice, bone marrow damage, liver damage, anemia and skin irritation. |
| | Ingestion Acute Exposure Effects: Harmful or fatal if swallowed. May cause nausea; vomiting; weakness; muscle twitches; gastrointestinal irritation; diarrhea; unconsciousness; convulsions; and death. |
| | Chronic Exposure Effects: Reports have associated repeated and prolonged overexposure to solvents with |

| | 3. CC | OMPOSITION/INFOR | RMATION ON INGREDIENTS | | |
|--|--------------------------------------|--|---|--|--|
| CAS # | Hazardous Components (Chemical Name) | | Concentration | | |
| 8052-41-3 | | t {Mineral spirits; Aliphatic ates; White spirits} | 80.0 -100.0 % | | |
| 25551-13-7 | Benzene, Trimet | hyl- | 3.0 -7.0 % | | |
| Additional Chemical | | Ingredients vary due to mu | ltiple blends and/or raw material suppliers. | | |
| | | 4. FIRST A | ID MEASURES | | |
| Emergency and First Aid Procedures: | | • | Inhalation: If user experiences breathing difficulty, move to air free of vapors. Administer oxygen if breathing is difficult. Skin Contact Acute Exposure Effects: | | |
| | | Skin Contact: Wash with soap and large quantities of water for at least 15 minutes. Seek medical attention if irritation from contact persists. | | | |
| | | Eye Contact: Flush with large quantities of water for at least 15 minutes and seek immediate medical attention. | | | |
| | | Ingestion: Do NOT induce vomiting. Call your poison control center, hospital emergency room, or physician immediately for instructions. | | | |
| | | If spontaneous vomiting is about to occur, place victim's head below knees. If victim is drowsy or unconscious, place on the left side with head down. Never give anything by mouth to an unconscious person. Get medical attention immediately. | | | |
| | | ROUTE OF ENTRY: Inhal | ation, Skin/Dermal, Eye/Ocular, Ingestion/Oral. | | |
| Note to Phys | sician: | Call your local poison cont | trol center for further information. | | |
| | | distress. If cough or difficu | exposure can produce toxic effects. Monitor for respiratory Ity in breathing develops, evaluate for upper respiratory tract nd pneumonitis. Administer supplemental oxygen with uired. | | |
| | | pneumonitis hazard. Induc charcoal and/or gastric lav | material presents a significant aspiration and chemical ction of emesis is not recommended. Consider activated rage. If patient is obtunded, protect the airway by cuffed by placement of the body in a Trendelenburg and left lateral | | |
| | | | | | |

| | 5. FIRE FIGHTING MEASURES | | | | |
|---|---|-------------|--|--|--|
| Flammability Classification: | NFPA Class II | | | | |
| Flash Pt: | > 100.00 F | | | | |
| Explosive Limits: | LEL: 0.5 UEL: 6 | | | | |
| Autoignition Pt: | | | | | |
| Suitable Extinguishing Media | a:Use carbon dioxide, dry powder, or foam. | | | | |
| Fire Fighting Instructions: | Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame. | | | | |
| Flammable Properties and Hazards: | Combustible. Liquid. | | | | |
| Hazardous Combustion Products: | Carbon dioxide, Carbon monoxide, smoke, fumes and/or unburned hydrocarbons | | | | |
| | 6. ACCIDENTAL RELEASE MEASURES | | | | |
| Steps To Be Taken In Case | Methods for cleaning up. | | | | |
| Material Is Released Or Spilled: | Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Stay upwind, out of low areas, and ventilate closed spaces before entering. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). | | | | |
| | Spills/Leaks: | | | | |
| | Take up with sand or other non-combustible absorbent material and place into containers for later disposal. | | | | |
| | Dike to collect large liquid spills. | | | | |
| | Dike far ahead of spill for later disposal. | | | | |
| | WASTE DISPOSAL Dispose in accordance with appliable local, state and federal regulations. | | | | |
| | A single exposure, when used as directed, is not likely to result in adverse skin ef | fects. | | | |
| | 7. HANDLING AND STORAGE | | | | |
| Precautions To Be Taken in Handling: | Read carefully all cautions and directions on product label before use. Since emp container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this contain Read carefully all cautions and directions on product label before use. Since emp container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this contain according to local, state and federal regulations. Do not reuse this container. | ner. oty | | | |
| Precautions To Be Taken in | A static electrical charge can accumulate when this material is flowing through pip nozzles or filters, and when it is agitated. A static spark discharge can ignite accumulated vapors particularly during dry weather conditions. Always use proper bonding and grounding procedures. Keep container tightly closed when not in use. Store in a cool, dry place. Do not | r | | | |
