## Core Competencies

Business Development consulting services specializing in government contracting.

We provide technical assistance, bid response preparation, procurement education, administrative services, and contract administration to enterprises of all sizes seeking to build capacity through government contracts.

## Differentiators

Over 30 years of experience in government procurement, specification development, and management of all government solicitation acquisition methods.

Managed multi-million dollar projects, contract portfolios, and agreements.

Institutional knowledge of full spectrum of government procurement processes including state statutes, local ordinances, legislative, and adoptive measures.

Established tenure with publicly funded government agencies.

Diverse portfolio of professional services, goods, and commodities acquisitions for various governmental agencies.
