

Article 5. Building Sewers - Multiple Connections.

Section 5.01 Authority may require separation of pre-existing multiple connections to building sewers to comply with Section 3.04 whenever in its discretion it is necessary to alleviate a potential health hazard or to improve the operation of the Sewer System or as a result of subdivision of the Connection Units. Procedures when Authority directs separation are as follows:

A. Connection Units not previously connected to the Sewer System.

1. Separate Building Sewers shall be installed at Owner's cost.
2. Each Connection Unit shall pay the current enumerated fees required by Article 6.
3. Laterals installed by the Authority shall be at its own cost.

B. Connection Units already connected to the Sewer System.

1. Separate Building Sewers shall be installed at Owner's cost.
2. Each Connection Unit will pay no Tapping Fee.
3. Laterals installed by the Authority shall be at its own cost.
