

**Innovation**  
FRP Composite, LWS, WPE, and Engineered Steel Poles, including Substation Structures to Improve Overall Grid Reliability

**Features & Benefits**  
Lightweight, Strong, & Durable

**Application & Solutions**  
Solutions for all Grid Applications

**Innovation**  
Distribution Circuit Critter Deterrent to Reduce Risk of Electrical Equipment Failures & Interruptions

**Features & Benefits**  
Lightweight & Durable Construction

**Application & Solutions**  
Electrical Distribution Poles & Circuits

**Innovation**  
Critical Power, & Energy Storage Solutions

**Features & Benefits**  
Service Teams Nationwide

**Innovation**  
Improve System Reliability & Resiliency by Combining High-Resolution Waveform Analytics, Machine Learning, & Artificial Intelligence

**Features & Benefits**  
Lightweight, Non-Intrusive, Safe, & Cost-Effective

**Application & Solutions**  
FT-Switch & Panel Mountable

**Innovation**  
Technologies & Expertise to help solve the Toughest Power System Challenges

**Features & Benefits**  
Asset Monitoring, System Protection, Automation, & Control

**Application & Solutions**  
Oil & Gas, Distribution, Generation, Substation, & Transmission

**Innovation**  
World-Class Quality Products & Services to the needs of the North American Utility Market

**Features & Benefits**  
Energy Solutions that include Transformers, GIS, BESS, & FACT Systems

**Application & Solutions**  
MV & HV Solutions for the Utility Market

**Innovation**  
Streamlines Monitoring, Management & Troubleshooting Processes

**Features & Benefits**  
Enhance Existing Grid Assets with Cutting-Edge Technology

**Application & Solutions**  
Wood & Steel Pole Mountable

**Innovation**  
Supplier of Electrical Porcelain Insulators made in the US

**Features & Benefits**  
High Voltage Contaminated Environments & Engineered Solutions

**Application & Solutions**  
Distribution, Substation, & Transmission

**Innovation**  
World Class Technology in Power Cables

**Features & Benefits**  
Simple Connectivity and Maintenance, and Outstanding Electrical Features

**Application & Solutions**  
Extra High Voltage Cables and Accessories for Undergrounding Solutions

**Innovation**  
Complete Line of Custom Buildings Manufactured in the US

**Features & Benefits**  
Prefabricated, Modular, Strong, & Reliable Buildings

**Application & Solutions**  
Oil & Gas, Industrial, Utility & Much More

**Innovation**  
Supplier of Electrical Porcelain Insulators

**Features & Benefits**  
Substation, OH Line & Precipitator Applications, & RTV Coating

**Application & Solutions**  
Distribution, Substation, & Transmission

**Innovation**  
Grounding Technology that ensures Personnel Safety & Reliability

**Features & Benefits**  
Grounding, AC Mitigation, Cathodic Protection, & Design Services

**Application & Solutions**  
Oil & Gas, Distribution, Substation, & Transmission

**Innovation**  
Remote Visual & Thermal Monitoring for Critical Assets

**Features & Benefits**  
Increase Reliability, Safety & Reduce O&M Costs

**Application & Solutions**  
Utility Grade Visual & Thermal Fixed & Mobile Monitoring Solutions

**Innovation**  
OEM Manufacturing in the US

**Features & Benefits**  
Cost-Effective, Reliable, On-Time, & Custom-Built Offerings

**Application & Solutions**  
Pad-Mount, Submersible, Substation, Grounding, Overhead, Substation, & OH

## Outside Sales Rep Contacts

**Ignacio Sanchez**
