

|                          |   |
|--------------------------|---|
| Specification            | Customized  |
| Optional Material        | 40Cr, P20, Cr12, 38CrMoAl, H13  |
| Cavity Surface Treatment | Quenching and tempering, quenching, hard chrome plating, nitriding            |
| Cavity hardness          | HRC55-60  |
| Applicable resin         | Unsaturated polyester, vinyl resin, epoxy resin, phenolic resin, polyurethane |
| Straightness             | 0.02mm  |
| Smoothness               | Ra=0.025~0.012  |
| Cavity surface hardness  | < 0.02mm  |
| Boundary tolerances      | ±0.3mm  |
| Plating thickness        | 0.04-0.05mm   |
