

Parameter	Round Tube Pultrusion Mold
Specification	Customized
Optional Material	40Cr, P20, Cr12, 38CrMoAl, H13
Cavity Surface Treatment	Quenching and tempering, quenching, hard chrome plating, nitriding
Cavity hardness	HRC55-60
Applicable resin	Unsaturated polyester, vinyl resin, epoxy resin, phenolic resin, polyurethane
Straightness	0.02mm
Smoothness	Ra=0.025~0.012
Cavity surface hardness	< 0.02mm
Boundary tolerances	±0.3mm
Plating thickness	0.04-0.05mm
