

Stoddard Creek Puppies Contract

Stoddard Creek Puppies/Leslie or Josh Stoddard are to be referred to as SCP in this contract.

We are thrilled that you've chosen one of our puppies to join your family! Here are some tips and important information to help you and your new puppy adjust!

We are careful that our puppies receive only the best care and nutrition. Your puppy will have received at least one round of vaccinations as well as a de-worming treatment when you receive them. They will have been vet checked at approximately 6-8 weeks of age.

Please Note: You will need to schedule a puppy wellness exam with your own veterinarian **within the first 72 hours** of bringing your pup home. (Adjustments for holidays and weekend pick-ups or otherwise agreed upon timeline.) Please send a copy to us when this is complete, signed by your vet, with their letter head. **Initial:** _____
If the Buyer fails to comply, this contract is null and void and puppy can be repossessed by the Seller immediately.
Initial: _____

Nutrition and Your Puppy:

Your puppy has been started on Extreme Dog Fuel, Elite Nutrition, Puppies and Active Dogs, dog food. Feed your dog the Puppy and Active Dogs formula until they are 2 years of age.

Before you get your puppy, please find a dealer of this dog food near you if possible. Here is their website to find a dealer: www.extremedogfuel.com. We've been told by dealers of this food that they shouldn't need supplements when they are on this food. Please do your own research and act accordingly with how you see your dog growing and vet recommendations.

Nutrition and gut health is extremely important for your dog. Your dog is a large breed dog and does require more protein than smaller breeds. Good food helps ensure your dogs' joints, fur, eyesight, etc. remain healthy and a long life for your dog. Dog food should not be full of corn, grains, soy or fillers. Ancient grains are good because their chemical structure and gluten content is different than today's grains. Please make sure it is American made and mostly meat products. We want it to not have sat on a boat or in a warehouse losing nutritional value.

60% of canine degenerative conditions are related to poor nutrition, we require that your precious puppy continue with very good quality food. An ounce of Prevention is worth a pound of cure!

I, the buyer, agree to feed our dog Extreme Dog Fuel, Elite Nutrition, Puppies and Active Dogs, dog food or an equivalent brand of food for a 6 Month Health Guarantee to be honored. **Initial:** _____

Health Guarantee:

Upon possession of the puppy according to the date on our receipt, we give a 6-Month "Guarantee" based on these following conditions and feeding contract described here-in.

Buyer agrees to notify all veterinarians providing puppy care, that this puppy is under contract with SCP and they must be notified immediately of all major health issues and recommendations for significant treatment prior to administering veterinary protocols, medicines, or procedures and receive copies of all vet records via email and or hard copy.

Initial: _____

Should your dog, judged by a practicing veterinarian or veterinarian radiologist, be found to be abnormal SCP reserves the right to have access to all medical records, X-ray, tests, etc. to confirm diagnosis, as well as a second opinion and contact with your veterinarian. If it is determined that there is a fatal congenital deformity or diagnosis with a fatal disease the SCP warrants to furnish another puppy of the same breed and of equal value. If you decide to keep original puppy with said health concern dog must be neutered or spayed when appropriate and a receipt of spay or neuter certificate, or receipt of payment, must be provided to SCP.

It is important for the dog to finish growing before he/she is neutered/spayed in all aspects of their growth. Their internal organs need plenty of room to finish growing and developing before their skeletal growth is inhibited by any possible hormone changes due to being spayed/neutered.

I, the buyer, will have my dog Spayed or Neutered at the age of 2 years, not before, and will send proof to SCP.

Initial: _____

SCP does not guarantee the alignment of teeth. NO stomach tacking is allowed. This warranty does not apply to any damage or injury caused by negligence or accident. If for any reason SCP feels that there may be a problem regarding the placement or concern as to the wellbeing of the puppy, we reserve the right to collect the puppy.

SCP does not warranty any vet care expenses and it is the sole responsibility of the buyer to provide all financial support. However, please contact us with any major concerns. Also, keep in mind that a second opinion from someone who specializes or is familiar with large breed dogs is highly recommended.

Initial: _____

Payment:

A \$750 non-refundable deposit is required for reservation of a puppy. We require to be paid in full upon pick-up, or before delivery. We prefer CASH for the rest of the payment. However, if you are unable to pick up your dog in person then we will accept the original payment method of your deposit. Total cost of puppy is \$2500 not including transportation or add-ons. If for some reason, an unforeseen accident or death occurs while puppy is in our care, we will reserve a puppy from the next litter for you that fills your preferences/requirements.
