

Florida Cruise Embarkation Day Guide

Arrival, parking, luggage, and boarding preparation

Cruise-line instructions and your assigned arrival appointment always take priority over general guidance.

One Week Before

Complete check-in

Download boarding documents and luggage tags.

Verify documents

Ensure names match identification and review current entry requirements.

Confirm the terminal

Verify the exact terminal, garage, address, and road directions.

Check local events

Festivals, games, and road work can affect traffic and hotel pricing.

Embarkation Morning

Follow arrival time

Do not assume arriving very early means earlier boarding.

Keep essentials with you

Carry identification, medications, valuables, electronics, and a change of clothes.

Use official parking

Follow port signs and retain parking tickets or confirmations.

Plan lunch and waiting time

Some port areas have restaurants and attractions, but luggage storage may be unavailable.
