Fundraising goal

Help build a place for veterans

where strangers become friends, where hurts are  
healed and where faith is restored.

Society often fails to understand the things that are important to veterans which makes it difficult for them to relate to people around them and to get into a new rhythm once they separate from the military.

**Restore 22** is a 501(c)(3) nonprofit dedicated to providing an informal environment for military veterans (defined as anyone who has ever served in the US military) to connect with each other and with resources that can enhance their quality of life. Our goals are to:

- Reduce the 22 veteran suicides per day,
- Strengthen the veteran community,
- Assist all veterans in managing their unique challenges, and
- Bridge the gap between civilian perceptions and military realities.

We do this by conducting free events for veterans and by operating pop-up coffee shops around Pittsburgh to engage the veteran and civilian communities. **After two years of fundraising, we are currently searching for a storefront for our nonprofit Restore 22 Coffee Shop, a physical location for veterans to meet and take advantage of the services we provide that also will be open to the public who want to support them.** Learn more at [restore22.org](http://restore22.org).
