From Vision to Reality — Be Part of What Comes Next

Restore 22 is a veteran-focused nonprofit dedicated to creating connection, purpose, and community for those who have served. Through events, outreach, and the development of our Restore 22 Coffee Shop, we are building a welcoming space where veterans can gather, find support, and reconnect while also giving the broader community a meaningful way to show their support.

Thanks to the incredible generosity and engagement from our community through past fundraisers and partnerships, we successfully reached our initial fundraising goal and are now moving forward with opening the coffee shop this summer. What started as an idea has become a reality because of those who believed in this mission.

Sponsorship of the Grip It and Rip It Golf Tournament is more than a marketing opportunity. It's a chance to be part of what comes next. Your support helps sustain and grow this momentum, funding ongoing programs, events, and the long-term impact of the coffee shop. At the same time, it provides meaningful visibility for your business among a passionate and supportive community that values those who give back. Together, we can continue building something that not only honors service, but creates lasting connection and impact.
