Association
69th Annual Transposium**

**Wilmington, NC
June 2025**

Welcome:

On behalf of NCPTA, it is our pleasure to welcome you to the 69th Annual NCPTA Transposium in Wilmington, North Carolina! This year's theme is "Carolina Strong". We are delighted to have you join us for this inspiring event, where leaders, innovators, and professionals from across the industry come together to share ideas, forge connections, and drive progress. Throughout the Transposium, you will have the opportunity to engage in dynamic discussions, attend insightful sessions, and network with peers who share your passion and commitment. Our goal is to create a space that fosters learning, collaboration, and meaningful dialogue. We encourage you to take full advantage of everything 2025 NCPTA Transposium has to offer—explore new perspectives, challenge ideas, and most importantly, enjoy the experience.

Monday evening is the opening session and a great dinner sponsored by Carolina Thomas. Other activities on Monday night include Casino Night sponsored by Gregory Poole Bus Sales and Service. Tuesday night will be the "80s Dance Party" with prizes for best costumes. This is sponsored by White's IC Bus. This event will also include a Corn Hole Tournament. On Wednesday night we will enjoy "BUSGO Night" sponsored by Carolina Thomas.

Please wear your ***name badge*** to all events as it is your ticket and entrance. Security will be on-site and will check id badges. All guests will need to go to the registration desk and obtain a badge.

The registration desk will be open daily. If you are one of our many volunteers, a special thank you for your dedication. Please come by and see us if you have suggestions, concerns or just come by and say hi! Volunteers are always welcome and it is a great way to meet people.

Should you need any assistance, our team is here to help ensure a smooth and rewarding event. Once again, welcome to NCPTA Transposium! We look forward to an unforgettable journey together.

Best regards,
NCPTA Advisory Board

Instructions for using the NCPTA APP for Session Check ins and Surveys

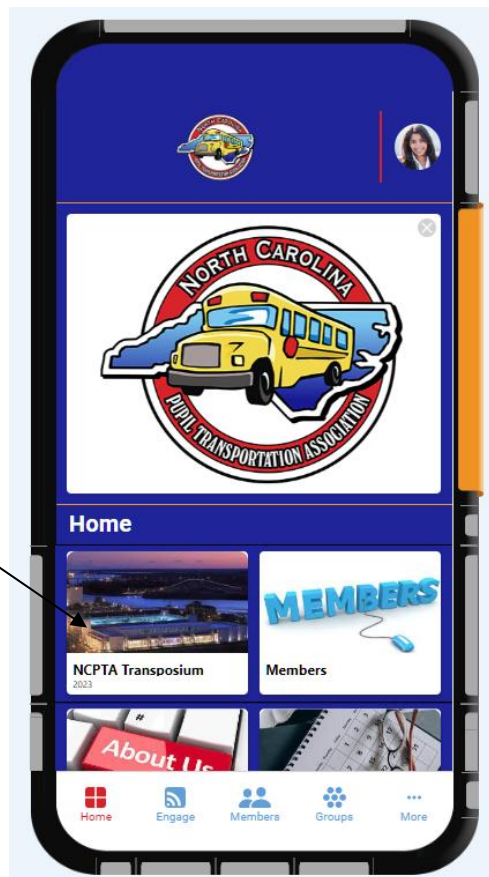

The credit hours for each session are built in the APP. There is a session survey you may complete for each session.

There is a window for check-ins. You may check in a session 15 minutes prior and after.

The session check in code will be posted in each classroom.

This should allow adequate time.

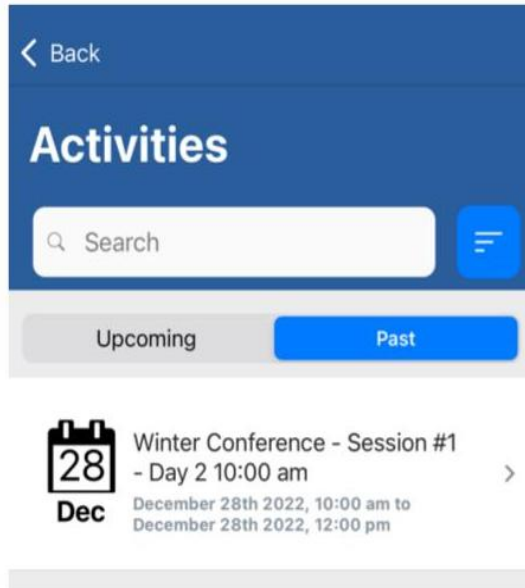

Once you have logged into the APP, select the tab shown below. If you need assistance, please come to the registration desk.

How to Check-In to an Activity

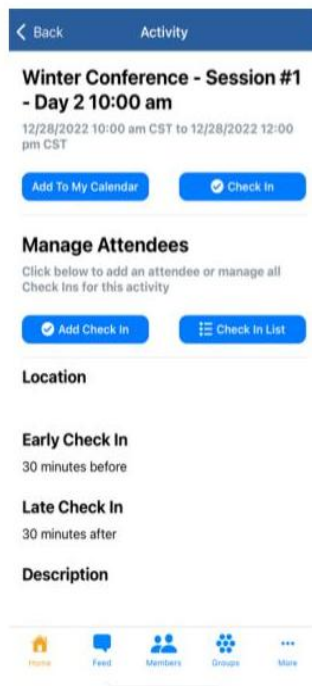

After you've created your check-in, your users will be able to check in.

1. Select the activity you'd like to check into from the "Activities" page.
NOTE: You can also view session activities from the event schedule.

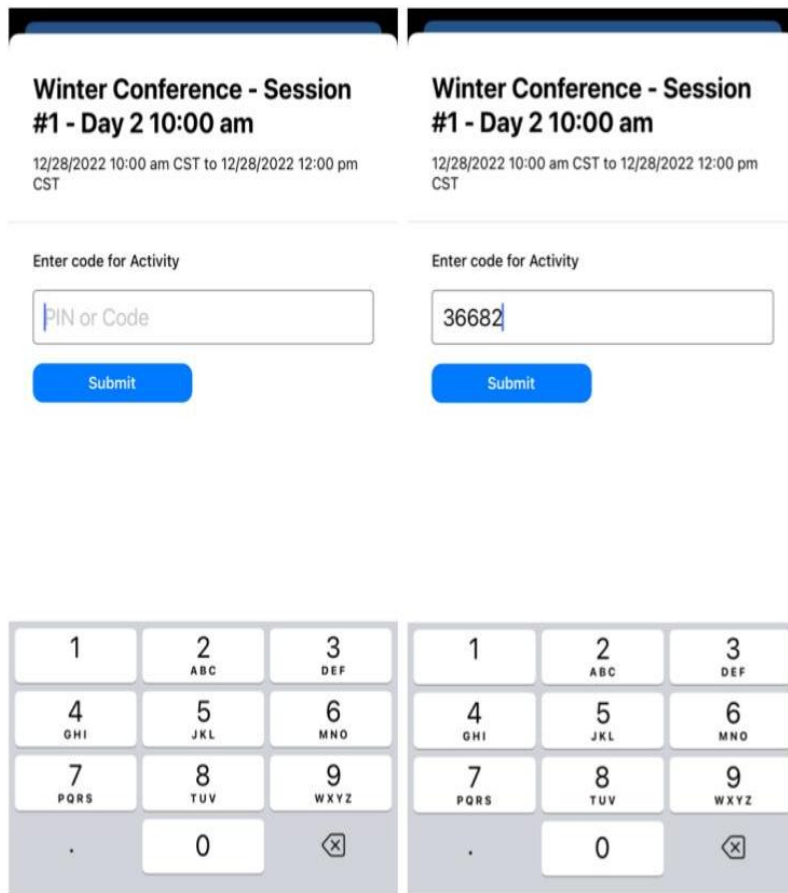

2. View Activity details. From here, you can add the activity to your calendar, view check-in times (including early and late check-in), view the location, and view the description.

Click on "Check-In".

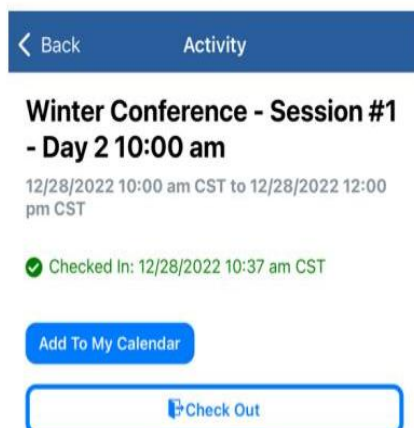

- From here, the app will prompt users to check-in using the predetermined check-in method. The check-in method here is a 5 digit code.

After entering the 5-digit code, press submit.

- You have now checked in to this event. You can see confirmation of your check-in on the activity screen seen below.

Franklin "Buddy" Holder Obituary

Franklin "Buddy" Delano Holder, 86, of Lillington, passed away, Wednesday, December 4, 2024 at Central Harnett Hospital in Lillington, NC.

Franklin was born May 13, 1938 in Harnett County, NC to the late Leslie Carson Holder and Callie Mae Black Holder. He was a graduate of Boone Trail High School and later served four years in the U.S. Navy.

On July 1, 1965, Franklin began working at Harnett County School Bus Garage as a Mechanic. He was promoted to Shop Foreman in 1975 and held that position until 1986. He accepted the position as Transportation Director at the Lenoir County School Bus Garage in 1986. Later he returned to Harnett County as Transportation Director in 1995. Like all pupil transportation personnel, Franklin always put safety of the children first.

Franklin served as President of the North Carolina Pupil Transportation Association in 1991 – 1992. He also served in other positions in the Association on the State and District level. Franklin was the Boone Trail Board of Directors President for Boone Trail Emergency Services from 1998 until present. He was a member of Woodside United Methodist Church in Lillington, NC. Franklin enjoyed NASCAR racing and spoiling his grandchildren and great grandchildren.

Fortress Mobile LPR Stop-Arm Camera

Increase safety and make better use of your time with the Fortress Mobile License Plate Reader Stop-Arm camera solution.

Our LPR detects motion when the stop-arm is deployed and SureBus automation sends an EMAIL and TEXT message to supervisors with a video clip of the violation.

SureBus will generate a sharable evidence report using this data.

Automated License Plate Capture

Detects Violations during stop-arm deployment and locks the video.

Automated Violation Downloads

Violation video and data is automatically uploaded to the cloud.

Violation Report Generator

SureBus Cloud compiles violation evidence into a sharable report.

2K Quad HD Recording

IPC Digital 2K QUAD HD video recording at 30FPS.

Live GPS Tracking

Web and mobile app GPS tracking with 3sec refresh rate.

Live Video Streaming

Access live video feeds anytime through web or mobile app.

Operational Efficiency

Save time by streamlining violation evidence and reporting processes.

WHY DOES NORTH CAROLINA LOVE LPG?

Propane school buses are cost effective.

- 40-50% less expensive than conventional fuels.
- Lowest NOx per dollar spent compared to all other fuels.
- Reduced maintenance burdens and costs.
- Affordable, flexible and scalable propane station infrastructure.

Propane school buses are a common sense, reliable solution.

- 25,000+ propane school buses transport 1.9 million U.S. students daily.
- 90% cleaner than the current EPA standard for NOx.
- Propane buses address operational challenges posed by other alternative fuels such as cost, infrastructure, range, sustainability.

LPG is widely used and accepted as a clean, sustainable fuel.

- The positive impact of propane autogas is continually backed by third-party validation, including a West Virginia University study and a Georgia State University study.
- Propane autogas is domestically produced, with 90% from the U.S. and an additional 7% from Canada.
