SednAir

Established in 2004. SednAir is a multinational industrial company focused on centrifugal compressor systems; including design, manufacturing, and sales of compressors and spare parts.

SednAir is comprised of experienced world-class engineers and onsite technical professionals. We believe in developing cutting edge and high quality products as seen in our vastly efficient Air Coolers, Diffusers, Condensate Traps, and MP5 control systems. SednAir has also adopted a lean manufacturing concept that focuses on customer satisfaction, value creation, and waste elimination. Our established supply chain has provided us with a competitive advantage in cost and service in the aftermarket industry.

Air & Oil Seals:

SednAir manufactures and supplies all Air and Oil Seals for Centrifugal Air Compressor models.

Rotor Assemblies:

All New and Repaired Rotor Assemblies are based on customer specifications.

Diffusers:

All New and Repaired Diffusers are based on customer specifications.

Bearings:

SednAir supplies all stages of Plain, Thrust, & Bullgear Bearings for Centrifugal Air Compressor models.

Miscellaneous Parts:

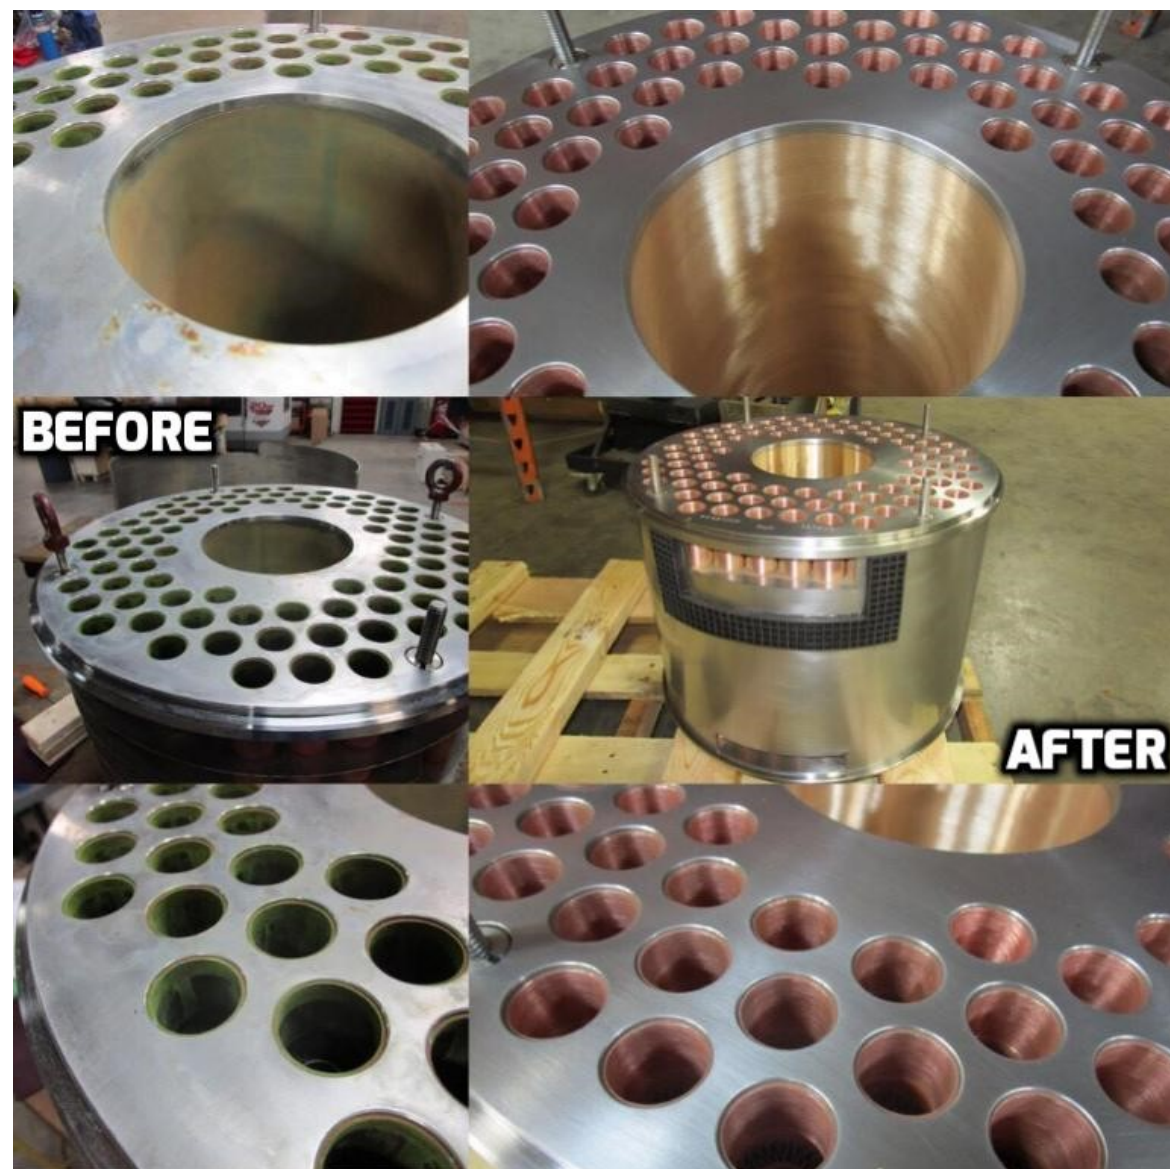

SednAir stocks and supplies any Centrifugal Air Compressor part that your business may need. Such as; Air and Oil Filters, MP5s, Vibration Probes and Transmitters, RTDs, CMCs, and much more.

Services

Cooler Clean / Test / Repair

Maintaining a clean and efficient air cooler is vital for the performance of your Centrifugal air compressor. America SednAir proudly offers our in-house air cooler cleaning process to all of our valued customers. We pride ourselves on being able to provide the highest quality service and fast lead time for cleaning, testing, and repairing your Centrifugal air coolers!

Part Repair

Damage to your internal parts doesn't have to mean replacement. Many times we can repair the component to a like new condition. America SednAir offers many repair options for your worn componentry. We always ensure the highest quality and that all repairs meet or exceed the OEM specifications. Utilizing our repair option can get your parts back in working order in a fraction of the time with the same performance.
