BenchMark™ LP LOW PROFILE BENCH SCALES

Industrial performance... with more space to spare

The BenchMark LP low-profile platform offers an overall height of just two-to-three inches. The more subtle presence of the LP is an attractive option for commercial situations, or other areas in need of a less obtrusive platform. Gain the same accuracy and performance as standard benchmark models in a more refined and inconspicuous package.

Available in a range of capacities and platform sizes.

Standard Features

- Mild steel base construction
- 304 stainless steel cover
- ABS junction box
- Four planar beam load cells
- Adjustable leveling feet
- 20 ft of EL147 load cell cable
- Holes in lower frame for mounting scale without adjustable leveling feet
