

Current Feeding Schedule

8:00- feed

12:00- feed

4:00- feed

8:00- feed

I leave dry kibble and water down all the time. Young puppies can get low blood sugar, therefore, I feed frequently. You should adjust the schedule to meet your needs, but remember young puppies need to eat frequently. Follow you vets advice when to feed 3 times per day and two times per day.
