

Automatic Lubrication Systems for Off-Road Equipment

The best time to lubricate is when equipment is working – keeping contaminants out and helping absorb component-damaging shock. Plus, you won't have missed lube points or need to schedule down-time for manual lubrication.

PROVEN QUALITY. LEADING TECHNOLOGY.

Engineered to Perform

Graco automatic lubrication packages give you a competitive advantage

Yellow Iron Kit Selector

Forestry Harvesters and Skidders

Dump Manual Lubrication

Equip Off-Road Vehicles for Highest Dependability

Graco offers a complete line of automatic lubrication systems that increases chassis component life and reduces downtime. A central pump and grease reservoir is located at a convenient and easily accessible location. The pump feeds grease to a metering device that accurately doses the grease in a predetermined, measured amount to each lube point.

Graco's automatic lubrication system constantly replenishes grease as it's used. Critical wear surfaces are protected and grease seals are maintained, preventing dirt and other contaminants from entering your bearings.

Graco Equipment Keeps you Moving

No Matter What you Drive, Graco's Got you Covered

Graco has systems for off-road vehicles and can customize systems for unique and one-of-a-kind equipment. More dependable equipment means more profits for your bottom line.

Heavy Construction

Earth Movers

Reduce Lubricant Usage and Operating Cost

Significantly cut maintenance and repair costs and maximize machine hours by supplying grease in small amounts at frequent intervals, ensuring proper lubrication when your bearings need it most—while they're in use.

You Get

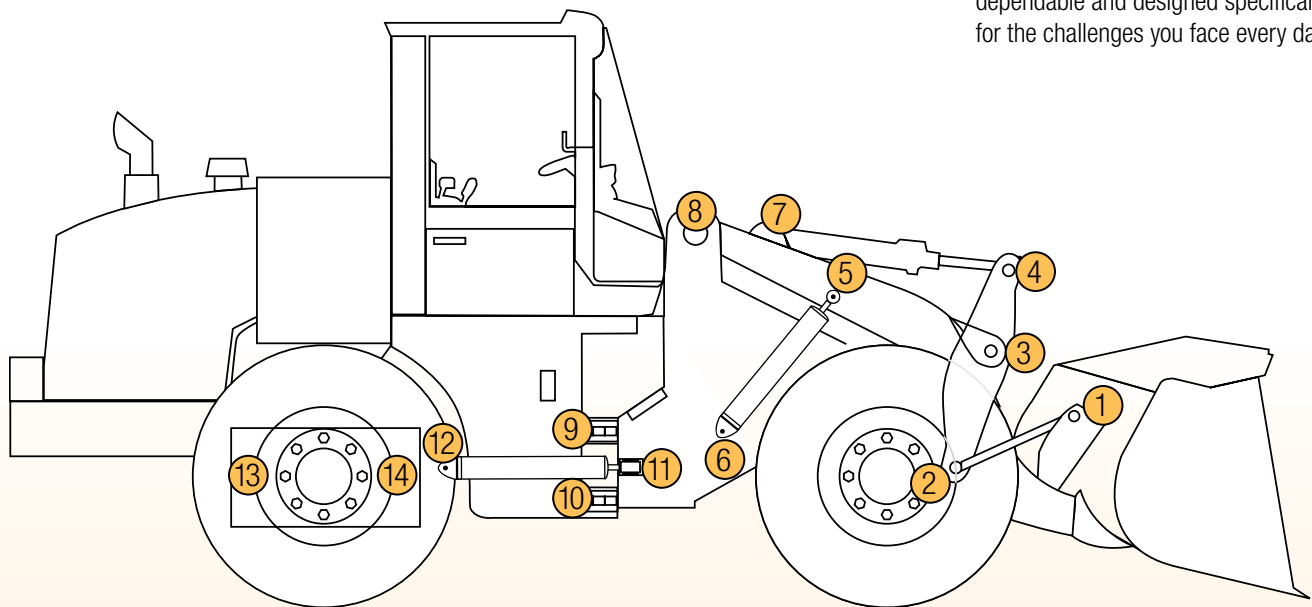

- Better performing equipment with less downtime
- More hourly production by keeping equipment on the job and out of the shop
- Less waste and higher profits due to lower lubricant consumption
- Positive return on investment and a healthier bottom line

Let Graco Lube it!

Automatically lubricate all these points while you work:

- | | | |
|---------------------------|----------------------------|-----------------------------|
| ① Upper Bucket Pins | ⑥ Left Cap End | ⑪ Steering Cylinder Rod End |
| ② Bucket Link | ⑦ Bucket Cylinder Cap End | ⑫ Steering Cylinder Cap End |
| ③ Bell Crank Pivot | ⑧ Boom Pivot | ⑬ Rear Axle Cradle |
| ④ Bucket Cylinder Rod End | ⑨ Upper Articulating Pivot | ⑭ Rear Axle Nose Bearing |
| ⑤ Left Cylinder Rod End | ⑩ Lower Articulating Pivot | |

Dependability you Can Count on Every Day

We know how your equipment takes a beating. Graco's automatic lubrication equipment is just as tough—built to perform in the most rugged environments. Graco automatic lubrication equipment...easy-to-use, dependable and designed specifically for the challenges you face every day.

Facilities Worldwide for Global Support

Quality First

At Graco we pride ourselves on providing best-in-class products. Engineered solutions are manufactured in our own facilities, with the highest standards in the industry. We provide you with world-class customer support and expertise to help solve your lubrication challenges.

Global Reach

Graco has facilities and distribution partners across the globe to provide you with the products and service *you* need, where *you* live. Plus, Graco has dedicated field experts in all areas of the world to support the products we sell.

Product Capabilities

Graco has a broad range of products to provide solutions that meet your needs. Our products are engineered and tested to perform in the harshest environments so you can be certain your equipment is protected and working at peak performance.
