A brief outlook about our Learning Management Platform

Learning Management Platform

A BRIEF OVERVIEW

A Platform which can be accessed by course instructors to enroll students in a course, upload relevant course material which includes scholarly articles, power point presentations, latest article links etc.

It is also used for providing course related information such as class timings, project and assignment deadlines, feedback among other functionalities.

Effective content management for students and faculty

Efficient tracking and reporting mechanism to monitor learning outcome

Compatible with all smart devices armed with SSL certification for data security

The Concept

BEING A PART OF LEARNING PEDAGOGY

Learning Management Platform transforms the manner in which students and faculty interact. Our Platform offers much more than simple classroom interaction, it supports the entire education experience enabling faculty to not only interact, but truly engage with their students in learning.

When all the information related to the course is available on the platform which can be accessed by a student having a smart device, learning becomes more interactive and effective.

One stop destination for learning beyond the classroom

About Us
