

## A Public Service Announcement

Life insurance is designed to protect your beneficiaries in the event of your death. The death benefit can help compensate a family for your lifetime income. It can also provide cash to pay any debts or business expenses you leave behind. Here are a few common reasons for buying life insurance:

1. To replace your income for any dependents who rely on that income.
  2. To pay for funeral expenses and other final expenses.
  3. To provide a financial legacy for heirs.
  4. To pay estate or inheritance taxes.
  5. To provide a donation to a charity.
  6. To create a savings vehicle if there is, or may be, a life insurance need.
- Check your current policy to see if it needs to be updated. If you don't have an insurance policy, look into purchasing one. You also visit **Life Insurance Made Easy** to get a quote and apply today ! ]
