

LVEB Pre-Install Checklist + Reminders

Please review items below. Reach out to your designer if you have any questions!

Checklist

- ☐ Kitchen or designated area where cabinets are being delivered is free of furniture and appliances
- ☐ Any existing old cabinetry (if applicable) has been removed
- ☐ All fragile items and decor are removed. The installer is not responsible for any damage to items that are not removed
- ☐ The driveway has space available for delivery and for installers to cut materials (weather permitting)
- ☐ All appliances (if applicable) have been unplugged and moved out of the installation area, and nothing is connected to gas or water
- ☐ Site has power readily available and an accessible bathroom
- ☐ Rough ins for plumbing and electrical are completed, and all fixtures are disconnected from plumbing

Reminders

Dust

- It can get dusty!
- Installers may not be able to cut material outside (weather dependent), having a garage available or covered porch can serve as a good backup
- Please note that while most materials can be cut outside, some cutting will also need to take place inside (jigsaw, handplane and oscillating tools will always be used inside)
- Dust and debris can travel, consider covering floors and nearby furniture to minimize cleanup
- Besides a vacuum, installers will not do a thorough clean of all dust after install

Secure pets/kids

- Keep pets, young kids and yourself in a separate area for safety and efficiency of the installation

Paint

- The final coat of paint should be applied after all cabinets are installed, as minor scrapes or marks can occur during the installation process

Plan for noise

- Installation tools can be loud! Plan for noise, if you are staying or working from home during the installation

Return Quality Check Visit

- Expect a return visit (within a week or so) after the installation for quality check and final touch ups, any concerns will be addressed at that time
