For those looking to play more than one sheet

How it works:

- Very simple. You give us \$5 and you pick who will place 1st thru 4th.
- For every team you get in the top four you get 1 point each. For every team that is in the right place that's another 2 points each.  
Person with the most points, wins the pot.
- 1st Tiebreaker: Highest team(s) picked correctly.
- 2nd Tiebreaker: Who is closer to the Winning Score.
