

You don't want to iron those badges on?

No problem! If you don't want to iron your BRAVE badges onto the I.AM.BRAVE cape, we find that an aerosol fabric spray glue (purple lid) works really well. You can also purchase a non aerosol fabric spray glue. Both are available from your local arts and crafts store. The two spray glues pictured below are just an example; feel free to use any fabric spray glue that you like!

Instructions: Spray the glue directly onto the back of the BRAVE badge, and then press the badge firmly onto the I.AM.BRAVE cape. Please follow additional directions on the label, regarding drying times.
