

**New MultiBase™ Centerpiece Display System.
Air-Filled Solutions for Retail.
SAVES TIME AND THE COST OF HELIUM !**

It is also possible to display without the MultiBase™.

Display air-filled balloons anywhere in the store without helium. No need to refill balloons to keep fresh... No tangled ribbons... **Keep balloons at eye level for more impact!**

5 EASY STEPS:

1. Fill balloon with AIR!
(see back page for electric inflator)
Attach balloon to MaxiCup™ II.

2. Place MaxiStick™ II into MaxiCup™ II.

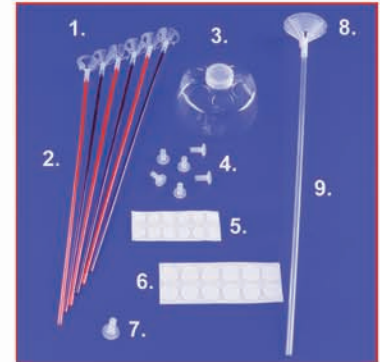

3. Attach the 2-sided MultiTape™ or Gel Tab™ to the bottom of the MaxiBase™ II.

4. Fill MultiBase™ with water, sand, etc... for added stability.

5. Attach MaxiBase™ II to MaxiBase™. Then attach cups and sticks to finish!

The New MultiBase™
New MultiBase™ centerpiece display system is a great way of combining air-filled latex and foil balloons. Perfect for any event!

The MultiBase™ can be used for standard latex balloons with the cups, 16" sticks and mini bases. And for larger balloons use new MaxiCup™ II, 20" MaxiStick™ II and MaxiBase™ II.

Items:

- | | |
|-----------------------|------------------|
| 1. Balloon Cups | 6. Gel Tabs™ |
| 2. 16" Balloon Sticks | 7. MaxiBase™ II |
| 3. MultiBase™ | 8. MaxiCup™ II |
| 4. Mini Bases | 9. MaxiStick™ II |
| 5. MultiTape™ | |

The MultiBase™ is lightweight and weighs about 30 grams for low cost shipping yet when filled with coloured water (as shown above), the weight increases to over 625 grams to hold down any air-filled balloon display! Arrangements can be quickly assembled anywhere and then easily transported to the event !

PLEASE NOTE :

MultiTape™ is for permanent use and should set up for 2-3 minutes before using. Gel Tabs™ are for non-permanent use for securing balloons on sticks vertically.
