

MAKEUP APPOINTMENT *Preperation*

Skin Prep

*the night before

Make sure your skin is clean and exfoliated. You can exfoliate the night before and follow with a rich hydrating moisturizer to be sure your skin is properly hydrated and balanced. Below are a few of my favorite products that I recommend. They are hypoallergenic and non-comedogenic:

Recommendation 1: Anua Pore Cleansing Oil (1st Cleanse), Cerave Foaming Cleanser (2nd Cleanse)
Recommendation 2: The Ordinary Glycolic (Exfoliator)
Recommendation 3: Keihls Ultra Facial Cream (day and/or night)

Skin Prep

*the day of

Be sure to cleanse your skin as you normally would in the morning. Using Micellar Water is a great alternative to foaming or lotion cleansers during the day. Keep the remainder of your skin routine simple: moisturize and apply eye cream. No need for serums or sunscreen. I will remove ALL your skincare before starting. If you must wear makeup before coming to your appointment, keep it simple and lightweight, so it is easy for me to remove. Thank you in advance!

Brow Grooming

Please have your brows groomed. I can groom them for you; however, I only offer tweezing. This is an additional fee and will add about 20 minutes onto your appointment time. If you need, let me know at least the night before your appointment so I can make the necessary time adjustments.

Hair Prep

Please come with clean and completely dry hair if receiving “dry styling”. This will allow me to style your hair in the scheduled time allotted. If you have curly/wavy hair and desire a smooth style, please prep hair before to include smoothing your natural curl. If you would like, I can do this for you, but I will need to add time; please make me aware before your appointment. If receiving shampoo service with your appointment arrive as normal and I will shampoo your hair (for in salon appointments only).
