

LifeWave Pre-Populated Shopping Cart Builder

We have added some new functionality to the Back Office that makes it easier to share LifeWave products with prospective customers. Not only will it be easier to share, but this new tool is very simple. This tool allows you to build pre populated shopping carts that also have your distributor information attached. Your prospects simply have to click on the link that you send them and their cart will have the items they want to buy already added and then they simply need to checkout through the standard process.

We are still in the process of improving the customer enrollment flow. Currently the pre populated cart will list items at retail price, so please inform your prospect that they will need to create an account and select their price to obtain PC pricing, but this is a big first step in helping to make it more simple, easy, and a streamlined experience for you and your prospects.

Here is how it works

Log into your back office and click on the "Organization" Menu. Select "Pre Populated Cart Builder"

A screenshot of the LifeWave back office navigation menu. The menu is displayed as a vertical list of options under the "ORGANIZATION" header. The "Pre Populated Cart Builder" option is highlighted with a red rectangular box, and a red arrow points to it from the right. Other menu items include "Enroll new...", "Personally Enrolled Team", "Upcoming Rank Promotions", "Downline Ranks", "Downline's Orders", "Downline's Monthly Subscription Order", "Downline's Maintenance Orders", "Recent Activity List", "Retail Customers", "Preferred Customers", "Reps", "Binary Tree Viewer", and "Enroller Tree Viewer". The background of the page shows a sidebar with various sections like "Linda Lin, our all-time highest sponsoring leader.", "Engaging Our Members in Several Ways", "Partner Linings" Emails", "Interesting Articles to Read", and "COVID-19 Impacts LifeWave Events". At the bottom, there are sections for "Commissions", "Your Rank Advancement", and a date range "2021/01/11 - 2021/01/17".

Within the Pre Populated Cart Builder Section you can create new pre populated carts OR you can modify pre populated carts you have previously created. The carts and associated links (to send to prospects) will all show on the first screen. If you are creating a shopping cart for a prospect that is in a different market/country than you, be sure to select that country from the country dropdown menu (at the top of your screen) when you begin.
