Introduction

The first time you view these slides with your Brand Partner(s), you may want to go through the presentation in its entirety, reading only the headings.

This way you will first grasp the overview before immersing yourself in the details.

- The idiom “*can’t see the forest for the trees*” means that the parts are distracting you from comprehending the whole. You can’t see the entirety because you're preoccupied with the details and overlook the bigger picture or the end goal.

There is no right or wrong way to use this presentation. Enjoy the process!

Start from wherever you are
and with whatever you've got.

— Jim Rohn
