

30 November 2021

Dear Parent / Carer

Yesterday, marked the introduction of tighter national restrictions because of the emergence of a new variant of Covid-19. In line with Public Health's previous request to all Northumberland schools, ALP schools are operating within enhanced restrictions therefore there are minimal changes to our risk assessment currently. A copy of our risk assessment is available on the school website.

A few parents have asked if they need to wear a mask while on school premises, at this time, it is not compulsory but would be preferable for parents to wear a mask at drop off and collection times. Unless exempt, parents must wear a mask to enter the school office/building.

Maintaining the safety of our school community is paramount and as the situation becomes clearer nationally, we will adapt our risk assessment accordingly.

Yours sincerely

L Hall
