by EMpower Solutions

Expertise in Energy Trading and Commodity Analytics

Commodity Trading & Risk Management

Emma brings in-depth knowledge of multiple Commodity Trading and Risk Management (CTRM) systems, trading platforms, and commodity data providers.

Her deep understanding of the energy domain has been gathered driving growth and mitigating risks for trading, data and consulting organizations across Europe and Asia.

Data Driven Decision Making

Emma's expertise extends to data analytics and business intelligence to bring reliable data to decision makers in an automated and timely manner.

Her focus is helping organizations to gather, model, analyze and interpret complex data sets to gain a competitive edge and make informed choices in dynamic market environments.

System Integration & Automation

Emma has been pivotal in facilitating seamless business integrations and expansions across banking and trading organizations.

Her strategic approach to identifying the best roadmap for blending systems and people ensures organizations can scale their activities while maintaining cost-effective and robust operational excellence along the journey.

Driving Operational Excellence

Business Process

Emma has built her career re-engineering business processes and controls while streamlining operations, implementing robust systems, and optimizing workflows to drive efficiency and productivity.
