Insurance Verification Form - OT & SLP

The following page must be completed and delivered or faxed to 734-527-5981. If you are comfortable emailing protected health information, you may choose to email the completed form to info@arborautismcenters.com. By doing so, you acknowledge you are sending PHI using an unsecure method which may compromise the confidentiality of the information being sent.

Calling the insurance company to verify what services are covered for Autism Spectrum Disorder will guide the next steps for your child (and help prevent unnecessary evaluations or testing). Insurance plans vary a lot, even within the same insurance company, and it is not uncommon to speak with an insurance representative who mistakenly gives you incorrect information. If you are a parent new to understanding your benefits and what is covered, this misinformation could keep you from getting the services your child qualifies for. These suggestions will help you best direct the call representative to the autism portion of your plan and document the call.

First, have the following page ready to write down your information, then call the number on your insurance card. Tell them that your child has an autism diagnosis, and you would like to know, "Is there a limit to speech therapy/occupational therapy/physical therapy sessions if my child has an autism diagnosis?" Tell them you are aware that these services have a different level of coverage when a child has an autism diagnosis and that you would like them to first check what is covered under the autism section of your plan. For some plans, this may be found under Behavioral Health.

After the representative answers your questions on the following form, repeat the answer back for clarification. For example, "So with an autism diagnosis, there is no limit to speech therapy visits, correct?" Write down this information on the following page and repeat again what you have written down. After confirming all the needed information, ask for the reference number of your call. This will ensure that you and the insurance company representative have a record of your conversation. If you run into problems with billing, the call reference number can be very helpful.

OT & SLP Insurance Verification Form

Prior to your initial therapy visit, you will need to contact your insurance provider to verify coverage for services,
