**“ My husband sought out Anthony and I couldn’t be happier”**

**My husband sought out Anthony from “My Family My Business” and I couldn’t be happier.**

**I have always been aware of the impressive entrepreneurial spirit and personable qualities that existed in my husband, I was also aware that his humility denied him the opportunity to develop and grow these qualities. However, with Anthony’s continual motivation and persistence of self-accountability, this ignited the confidence and passion necessary for my husband’s continued growth and achievement for all see.**

**Anthony has an innate ability to provide a service that is not only built on professionalism, but one that is founded in love and family. This was exemplified during our meetings, where Anthony encouraged my participation and welcomed me into the coaching sessions with my husband, once again reinforcing his transparent vision that unites both family and success. His methods are authentically invigorating, effective and productive.**

**Anthony’s guidance and coaching is unconditional, and two years down the track, I couldn’t be prouder of my husband. He now exudes confidence in his business, standing firm on his commitment to craftsmanship and quality of service. He radiates a light and positive energy that shines bright when interacting with our family, friends, and clients.**

**Anthony’s power lies deeply in his capacity to help people tap into their authentic and full potential, facilitating an abundance of success and most importantly happiness in our family. I am so proud of my husband who is a great father, a great husband, and an awesome (entrepreneur) business owner.**
