

NATIONWIDE INTEGRATED BUILDING SYSTEMS PROVIDER

# Director's Statement

Marva L. McMillen  
Owner and CEO

Being born and raised in Western South Dakota on the Cheyenne River taught me a lot about resourcefulness, and making do without much. I make sure throughout our organization that all of my employees and customers are treated like family because we all depend on each other to communicate and keep people protected and safe.

I was raised knowing the value of a dollar and take to heart that our customers trust us to go above and beyond to do the right thing both in the design, installation, and service of their systems to receive as much as their budget affords.

My promise to you is that we will always be open and honest and work hard regardless of the time or the day. If ever there is an issue that is not resolved or does not meet your expectations, I am always available to all of our customers night or day.

*Marva L. McMillen*

Email: [mmcmillen@midwestalarm.com](mailto:mmcmillen@midwestalarm.com)

## Why Customers Choose Us

### Professional Staff

Our nationally recognized and award-winning field technicians, engineers, and support staff rank near the top of the industry for years of experience

### Attention To Details

We never cut corners. That's why our company ethos is, "Do the right thing, and success follows." It's the reason we are invited to projects nationwide.

### Love & Passion For What We Do

Dozens of our employees have first careers in the military, law enforcement, and emergency response. We really care about your safety and protection.

*"I was raised knowing the value of a dollar and take to heart that our customers trust us to go above and beyond to do the right thing..."*

## Technology for Stadiums & Arenas

### WE PROVIDE INTEGRATED SOLUTIONS

Here at BCI Integrated Solutions, we live and breathe sports and have been working on stadiums for a long time. We are among the top providers in the United States for all your electrical and low voltage system needs, and we are ready to turn your stadium, arena, or field's technology system into a thing of beauty.

**ELECTRICAL**  
**AUDIOVISUAL**  
**FIRE ALARM**  
**SECURITY**  
**STRUCTURED CABLING**  
**SERVICE**

For over 20 years, we have brought audiovisual magic, responsible security, and data solutions to sports organizations throughout Florida. We work with you to bring your vision to life, and our commitment to clear, consistent communication will make you confident that your facility will be ready when your season starts.

### WHY US

BCI Integrated Solutions is a certified electrical contractor and provider of specialized innovative electronic building solutions and low voltage systems. We are headquartered in Tampa and have offices in Orlando, Jacksonville, and Fort Myers, one of the most popular areas in the country for baseball and home to several basketball, hockey, football, and soccer teams in a variety of leagues. We can provide superior service and support your demand as a prestigious client anywhere in the United States.

BCI has provided professional solutions for businesses for over twenty years. Our employees' experience and professionalism allow us to provide your business with the service and follow-up you expect from a professional contractor.

From system design to installation and service, BCI Integrated Solutions has the experience to handle any size project. Let us show you how we can deliver your arena, stadium, or other sport's venue the systems you expect.

## About BCI

Midwest Alarm, dba BCI Integrated Solutions, is a private woman-owned business established in 1967 and is among the largest providers of Electrical, Audio Visual, Life Safety, Security, Nurse Call, and Structured Cabling solutions in the United States, proudly serving family businesses to the Fortune 500.

BCI is headquartered in Sioux Falls, South Dakota, with a Southern headquarters in Tampa, Florida, with offices in Ft. Myers, Orlando, Jacksonville, Atlanta, Dallas, Omaha, Sioux City, and Minneapolis. We have built solid relationships with prestigious and in-demand clients and contractors by providing superior service and support. We continue to grow, expanding nationwide project capabilities, with offices across Florida, Georgia, Texas, South Dakota, North Dakota, Iowa, Minnesota, and Nebraska.

**Take care of our customers,  
and our customers will take care of us.**

From our inception over half a century ago, we worked with both end-users and contractors as we developed relationships with key suppliers. We expanded our solutions based on customer demand, acquiring Baytown Sound, Acme Communications, and 3D Solutions.

In 2004 we added key employees to focus on integrated solutions, allowing us to meet all our customers' low voltage needs. In April 2005, we changed our name to BCI Integrated Solutions to better reflect the enlarged scope of our business. By 2013, our growth and expertise would catapult us into landing the largest-ever low voltage job at MacDill Airforce Base.

In April 2021, we acquired United Security Alliance, Inc, expanding our security expertise. It was at this time we were awarded a MultiAuthority Jacksonville Security Contract valued at \$15.6 million. Our employees' experience and professionalism allow us to provide you with the service and follow-up you expect from a professional contractor. We believe in ongoing training for our employees so that we can design and install the highest quality systems utilizing the latest tools and technology. From system design to installation and service, BCI Integrated Solutions has the experience to handle any size project. Let us show you how we can deliver the systems you expect.

BCI was founded on a basic principle: Take care of our customers, and our customers will take care of us. From this basic principle, our business has naturally expanded over the years. We have had the opportunity to provide integrated systems to Fortune 500 companies, commercial businesses, educational facilities (K-12 & higher education), government buildings, healthcare facilities, hospitality locations, and large venues.

In October 2021, BCI Integrated Solutions acquired Pelican Electrical Group. Pelican and BCI have a long history of working jobs together, so the acquisition was a perfect fit. In May 2022, BCI further added to its electrical contracting capacities by acquiring JN Electric of Tampa Bay.

We are excited to offer our customers electrical and low voltage solutions creating a one-stop provider. To date, our growth has led us to house over 400 employees and expand across several states, competing for some of the largest electrical and building technology projects in the United States.

# TAMPA BAY LIGHTNING - AMALIE ARENA

TAMPA, FL

BCI Integrated Solutions has taken on many stadiums and arenas. Amalie Arena, home of the NHL Tampa Bay Lightning needed a complete fire alarm system. We did the design and installation throughout the entire arena.

Along with the fire alarm system, we also installed temperature recording integration. Temperature recording is a line of defense against the COVID-19 virus. Temperature recording can help protect your employees and customers and ensure safety for all.

# JOKER MARCHANT STADIUM

LAKELAND, FL

BCI Integrated Solutions proudly partnered with the Detroit Tigers and Joker Marchant Stadium to renovate a classic Lakeland landmark for the 2017 season.

Publix Field at Joker Marchant Stadium, named after longtime Lakeland Parks & Recreation Director Marcus "Joker" Marchant, is the oldest continually occupied spring training facility in Major League Baseball. The Detroit Tigers and their Class-A Advanced affiliate, the Lakeland Tigers, have taken today's Publix Field every year since 1966.

Some of our installations included:

- Access control systems to suites and sensitive areas
- Security cameras and video monitoring throughout the stadium
- Structured cabling for low voltage systems and data center installation

Let BCI Integrated Solutions bring some of these great systems to your business! Reach out to us today for more information about what we can do to improve your organization's technology.

# ORLANDO CITY STADIUM

ORLANDO, FL

BCI Integrated Solutions was very excited to be a part of the new Orlando City Soccer Stadium in Orlando, FL. BCI worked directly with the General Contractor and the owner to install the access control system and video management system. BCI worked directly with the owner to install the suite ticketing readers, and the MLS required a replay camera system for replays viewed from the MLS offices.

The access control system consisted of 24 secured doors throughout the stadium, including the suite level areas, select entrances into the stadium, club offices, access to the back of house operations, and cash rooms. Part of this system is a badging station used to deliver and alter credentials to the access control points and three client workstations.

The Video Management Systems (VMS) consisted of 52 IP cameras placed throughout the facility, ensuring every part of the stadium could be seen at all times. Because of the high mega-pixel cameras, the VMS operator can focus on a specific point in the video while the entire capture area is still being recorded, ensuring that nothing is missed. The operator can also send parts of the video to security staff through their mobile devices, allowing an altercation to be dealt with quickly and with minimal disruption. The VMS stores large amounts of data, allowing the user to access footage both in real-time and post-event.

# TORONTO BLUE JAYS - TD BALLPARK

DUNEDIN, FL

BCI Integrated Solutions took on a large project during the remodel of the Toronto Blue Jays spring training field, TD Ballpark. The ballpark has been a home for Major League Baseball spring training for more than 40 years. This renovation provided a drastic increase in capacity, nearly doubling the number of people that could attend games. This renovation required a new PA system to ensure exceptional quality of sound and the safety of staff, players, and guests.

BCI provided the life safety PA system for this facility. This system provides audio for game announcers, background music, and life safety announcements. Touch screen controls were implemented for easy user operation. The fiber was run between rack rooms to provide a solid connection while the system is powered by battery backups to ensure the life safety aspects work even in catastrophic grid failure.

# BALTIMORE ORIOLES - ED SMITH STADIUM

BRADENTON, FL

Ed Smith Stadium is the spring training home of the Baltimore Orioles. BCI designed and installed a life and safety system and structured cabling for the expansion of the arena. We handled all TV distribution and background music with multiple zones for independent control. We also installed audiovisual and access control systems, maintaining a relationship with the facility.

# ALFRED A. MCKETHAN FIELD

UNIVERSITY OF FLORIDA - GAINESVILLE, FL

BCI Integrated Solutions has completed another successful installation for the University of Florida's Baseball Team. This system consisted of both audio visual and broadcast cabling for the baseball stadium, Alfred A. McKethan Field.

The audio visual system consisted of a distributed PA system with community speakers and a QSC core infrastructure, control, and amplification system.

Localized audio visual systems were provided in key areas for meeting rooms, club room, suites, pitching/batting tunnels, and more. Over 100 TVs and 200 speakers were installed to reinforce the game in public spaces.

Over 10 miles of Broadcast Cabling consisting of Triax, SMPTE, CAT6, and RG11 were installed. This broadcast cabling system allows the school's sports network Gatorvision the infrastructure necessary to film and broadcast each game. Over 20 locations were distributed around the stadium for the connection of this equipment.

# STEPHEN O'CONNELL CENTER

UNIVERSITY OF FLORIDA - GAINESVILLE, FL

BCI Integrated Solutions was part of the University of Florida's renovation of the Stephen C. O'Connell Center, where they host their Basketball, Gymnastics, Swimming, and Volleyball events, to name a few.

The sound system for the Stephen C. O'Connell center was designed with the attendees in mind. BCI installed eight of EAW's latest point source speakers. These eight EAW QX500 speaker clusters were installed all along the bowl in order to distribute the sound equally throughout, making every seat perfect for sound. BCI provided all of the riggings for the main speaker clusters, including chain hoists, to enable the speakers to be lowered for service.

We also installed speakers beneath the scoreboard to cover the floor of the arena and not miss those courtside seats. On the upper bowl, delay speakers were installed to cover the sound beyond the main clusters, creating a connected sound system throughout the inside of the arena.

Along with speakers inside of the main arena, BCI installed perimeter speakers within the public concourse areas allowing everyone in the O'Connell center to be connected to the event inside at all times.

For the fans who are unable to attend the events at UF, we installed a broadcast cabling system for the connection of media trucks to distribute live to local and national sports networks. We used Triax cabling for cameras and fiber to each location. This cabling system is terminated in stainless steel outdoor racks, ready for connection to broadcast trucks. This system makes a seamless process for any broadcast truck to work with and get the game/event to fans across the nation.

# JETBLUE PARK

FORT MYERS, FL

BCI Integrated Solutions was contracted to provide a Fire Alarm System, Voice/Data Structured Cabling, and Access Control for the new construction of JetBlue Park/ Fenway South, the spring training facility for the Boston Red Sox.

The exterior of the facility was designed very similar to Fenway Park in Boston, MA. It has the same dimensions and has some of the main features, including the Green Monster in left field. The facility features both major and minor league teams and a rehabilitation center.

BCI provided and installed a Fire Alarm System throughout the facility. BCI also designed and installed the structured cabling for the park, including the scoreboard, Monster Bar, Monster Deck, Club House levels, and more. BCI worked within the facility to ensure the best quality possible. This included adding in access control to over 45 doors within the complex to ensure an excellent level of security.

## **ANN MARIE ROGERS SWIMMING AND DIVING POOL**

UNIVERSITY OF FLORIDA - STEPHEN O'CONNELL CENTER  
GAINESVILLE, FLORIDA

BCI Integrated Solutions designed and installed a new speaker system for the Ann Marie Rogers Swimming and Diving Pool of the Stephen O'Connell Center at the University of Florida.

This system included four wide dispersion short throw speakers to cover the bleachers, two speakers to cover the center of the pool, two long-throw speakers to cover the left and right ends of the pool, and one speaker to cover the far end of the diving board area.

The speakers were mounted from the steel structure of the columns and reviewed by a structural engineer for safety. The existing catwalk speakers were safely removed and disposed of onsite. QSC amplifiers were provided to drive the new speakers and connect to the existing Q-Lan network. A single line-level XLR input and 1/8" input was provided at each end of the pool, with two more locations on the opposite side of the audience for audio connection into the system.

HDMI video extenders were then provided at three of these input locations. These extenders cabled back to the office for use with the scoreboard video system, which is provided by others.

An owner-provided iPad was programmed for volume control and routing of audio sources. These sources include the connections mentioned above, internet radio, CATV Audio, arena house sound, arena radio tuner, and arena truck audio feed.

# CREDENTIALS

## TAMPA BAY RAYS - TROPICANA FIELD

ST. PETERSBURG, FL

Tropicana field is home to the Tampa Bay Rays. The facility, commonly known as “The Trop,” has housed the Rays since the team’s inaugural season in 1998. BCI Integrated Solutions designed and installed a stadium-wide CATV system, plus did the installation of more than 200 televisions to the existing cable infrastructure.

We installed:

- Stadium-wide CATV system
- 200+ televisions to the existing cable infrastructure

## CLEARWATER ICE ARENA

CLEARWATER, FL

Clearwater ice arena is the home of Tampa Bay Skating Academy, as well as a training facility for Hockey and Figure Skating with an NHL-sized, state-of-the-art ice rink.

We installed:

- Security
- Fire Alarm
- Structured Cabling
- Audio Visual

<p><b>7</b> List account number(s) here (optional)</p>	

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

**Note:** If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

<b>Social security number</b>									
<b>or</b>									
<b>Employer identification number</b>									
4	6	-	0	3	0	7	8	9	9

## Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

<b>Sign Here</b>	Signature of U.S. person ▶	Date ▶ <b>2/6/2023</b>
------------------	----------------------------	------------------------

## General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/FormW9](http://www.irs.gov/FormW9).

### Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

*If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.*

March 18, 2021

To Whom It May Concern:
