together

we can create meaningful change and uplift the lives of those living with FXS and their families. To learn more about our organization, please visit our website at FRAXSOCAL.com

Who we are...

The Fragile X Association of Southern California was formed in 1996 to promote public awareness of Fragile X Syndrome with special emphasis on educators and health professionals; provide a forum for families of children with Fragile X to meet and share their ideas, concerns, and problems; and support scientific research on Fragile X Syndrome. We are a California 501(c)(3) tax-exempt non-profit organization run entirely by volunteers parents and professionals. We are also a Community Support Network (CSN) for the National Fragile X Foundation (www.fragilex.org) as well as a Community Partner of FRAXA (www.fraxa.org).

Whether you just received your diagnosis, learning the special educations and/or public benefit system or your child is transitioning to adulthood we are here for you!

Main Line: [916-703-0280](tel:916-703-0280) | Massie Family Clinic: [916-703-0300](tel:916-703-0300)

Randi Jensen Hagerman, M.D., F.A.A.P.

<https://health.ucdavis.edu/mindinstitute/research/fragilex/index.html>

To serve the entire Fragile X community to live their best lives by providing the knowledge, resources, and tools until, and even after, more effective treatments and a cure are achieved.

(800) 688-8765 | contact@fragilex.org | <https://fragilex.org>

We directly fund research grants and fellowships at top universities around the world. We partner with biomedical and pharmaceutical companies, large and small, to bridge the gap between research discoveries and actual treatments. Treatments for Fragile X are likely to help people affected by autism, Alzheimer's, and other brain disorders.
