Lesson review by CC. wledge

Subject: Sociology

My teacher is Aida, I would describe Aida as bubbly very enthusiastic and a general a nice person.

Sociology is one of my most liked lessons, the work is at a level I can handle and It's explained in a way I can understand it because Aida has a mad way of teaching us this boring subject.

I don't think there is anything I could do to change Aida as a teacher she is fine.

I think the lesson would work better with 5 minutes break in between the 2 hours because lessons can be stressful or cramped so the 5 minutes to refresh would help. And everyone in lesson on time so we don't have to waste time waiting for students to arrive, making sure were ready for learning on time.

Conflict/Functionalist Theories

So far, we have learnt:

- 1. Introduction to Sociology
- 2. Sociological approach

KARL MARX EMILE DURKHEIM

3. Movements – Black lives, #Metoo, feminist writers, #Alllivesmatter, 7UP, International women's day and the dot movement.

At the moment we are studying families Aida's style and I can't wait for the way she is going to this it!
