

Mission Statement

We hope to provide the best and safest environment for young kids to play volleyball at the highest level they can achieve. This year, we hope to run teams for the boys and continue what we have run for the girls.

We will be hoping to run 15U, 16U, 17U, 18U for both girls' and boys' team. We also will have to see if we have the numbers for the 14U Boys/Girls levels.

Our Mission is to continue developing better techniques and skills for any player at every position they wish to play on a volleyball team. Our hope is more players will be able to achieve higher levels at their position.

We hope that there are no kids left out of a team because of cost or lack of ability.

Vision Statement

Last year was the largest our club has been with 11 teams running. We still see that in the future there will be kids that have learned volleyball from this club that we will keep continuing the club for the future younger players.

With that goal we are developing solid, honest players that pride themselves with playing and loving the sport of volleyball not just for now but the future too.

To encourage the growth of these values we have been working to develop coaches as well as players in our club.

With so many teams we are hoping that the coaches we have developed will continue to coach at VVC and developing players.

Club goals:

Provide as many players as possible that want to play the chance to be part of the team and to get on the court to develop their abilities for their school and future teams. We are willing to work around player and coaches' schedule to make it work. We try to keep the cost down for all players so playing is not out of reach. We do pay our coaches or other club officials a small gratuity to cover course work, gas, time, and any costs incurred when coaching and traveling for the club. So, we hope that parents can help at matches and tournaments with driving, providing food, scorekeeping, and serving as a linesperson. We are willing to train and guide you if you wish to learn any of these roles. Also, we have developed coaches from the ranks of our parents. So if you interested to become a coach get in contact with Mr. Wong.

We hope to develop volleyball in Vancouver so every player can compete at a higher level with other regions of the province.

This year we may have the highest number of teams in the club in a long time. Thanks for all the coaches that are making it happen this year.
