**OUR NATIONAL CHURCH PLANTERS
ARE TRAVELING THE ROADS!**

Church Planter Tia Longkumer of India

Our brother planted Haven of Hope Baptist Church, Dimapur India. He is overseeing 11 house fellowships in India & surrounding nations with plans for them to become churches one day. He started a Bible College 4 years ago to train nationals for church planting. Their first graduation will be in April with 7 men going back to their fields for church planting. At present, the college has 38 students.

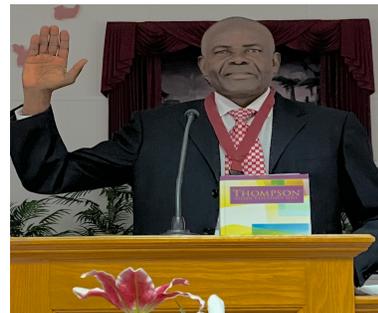

Church Planter Samuel Karbiru of Kenya

Our brother planted Harmony Baptist Church. He has planted 12 churches in the bush and cities throughout Central Kenya.

Church Planter Noel Batayo of the Philippines

Our brother planted Solana Bible Baptist Church. He has planted 7 churches in the Philippines with a Bible vision to plant more churches.

Church Planter Cephas Rodo of Kenya

Our brother planted Ongito Baptist Church. He is a 'Bush Church Planter' reaching the people beyond the cities with the gospel. So far he has planted 10 churches in the bush. He also teaches farming techniques in the bush villages to put more food on the table.

Church Planter Mukumu Debbarma of India

Our brother planted Antioch Biblical Baptist Church. He has planted 7 churches & is training God called men to plant churches. At present he is discipling 7 men.

Church Planter Earl Balingit Balagot of the Philippines will be joining us on February 12.

All these men have a Bible vision to plant churches and disciple men called of God to do likewise. Some are trained by 'one on one,' others at a Bible College. Please pray for their 3 months stay in the U.S. I along with Tom Knickerbocker will be taking the men to the Northeast for the month of April. They will be flying back the first week of May.

BE PRAYING FOR 'BUSH CHURCH PLANTERS' MINISTRY

During 2026, my prayer and plan are to raise support for the national church planters *located in the remote bush*. Some are far beyond the cities. They will never come to America because of language barrier and location. They have been taught Bible doctrine and church planting through H.E.L.P. Ministries national church planters. They are poor and doing much with little. They will do more with personal support ranging from \$100 – \$300 (pending on their location and responsibility). This will give them more liberty and time for church planting. These are men that I have spent time with and can vouch for their doctrine and labor. I will present them through meetings and media. If you are interested, please contact me. Please pray for these church planters.
